

Ashburton Tagalog — New Congregation Information Index

Working index · Updated 9 August 2026

One place to track the official forms, source documents, verified statistics, calculations, and information still requiring confirmation.

Submission sequence: S-50 paragraph 5 describes a recommendation package. The circuit overseer has presently asked for only the S-51, and a service-committee-signed S-51 has now been received. Follow his requested sequence while keeping the remaining forms ready. M-202 is the only item S-50 explicitly allows to be handled after approval.

Point 5 text currently entered

The Ashburton territory has a significant Tagalog-speaking population with publishers and Bible students who depend on the language for spiritual instruction and progress. There is a stable and spiritually mature core of fluent publishers, including appointed brothers, capable of providing shepherding and caring for congregation responsibilities. The field has demonstrated sustained growth and continued disciple-making potential, making it appropriate to strengthen the arrangement by forming a congregation.

10. Information still to confirm

- Reconcile S-51 point 2: **31 total active** is entered, while **35 regular** is entered. The latter matches the proposal's total listed publishers and exceeds the active count.
- Obtain Ashburton Congregation's projected post-formation figures for **total active, regular, baptized, regular pioneers, special pioneers, elders, and ministerial servants** and enter them in points 2–4 of its separate S-51.
- Confirm whether the blank **special-pioneer count** for S-51 point 3 should explicitly be entered as zero.
- Confirm the complete official-name format: **ASHBURTON TAGALOG** is entered, but the city and province/state lines are blank.
- Brothers proposed as **coordinator, secretary, and service overseer**.
- Obtain the **date and circuit-overseer signature** when directed.
- Final **territory boundaries** and every directly affected existing congregation.
- Confirm the entered **First of November 2026** proposal and the **NZ-1B** circuit/section recommendation with the CO.
- Confirmation that all weekly meetings can be conducted locally as required by S-50 paragraph 2(5).
- Reporting date and scope of the **34 progressive Bible studies**.
