open control decisions

Current control point: Both S-51 forms—the proposed Ashburton Tagalog congregation and the Ashburton host congregation—have been sent to the circuit overseer. S-50 through par. 5 has been confirmed; par. 6 remains pending because branch approval and start instructions have not yet been received.

Next action: Wait for the circuit overseer’s next direction and, under S-50 par. 6, the branch office’s approval letter. Do not begin functioning or assume a start date before that letter.

This combined document is designed for review at a planning meeting. Use the interactive portal for navigation and the persistent checklist for ticks and notes.

Forms Register

Current sequence: Both requested S-51 forms have been sent to the circuit overseer. S-50 through par. 5 is confirmed; par. 6 remains pending. This register shows the eventual S-50 package but does not imply that every remaining form should be sent now.

Circuit overseer and affected bodies of elders	Not Started	14-S-6_E.pdf Final language-territory boundaries and directly affected congregations require confirmation.

Current submission position

1. The proposed Ashburton Tagalog S-51 has been sent to the circuit overseer.

2. The separate Ashburton host-congregation S-51 has also been sent to him.
3. S-50 through par. 5 is confirmed. Wait for the branch-office decision and instructions described in S-50 par. 6.
4. Prepare or submit S-29, S-5, M-202, S-36 and S-6 only when current direction requires them.

Submitted S-51 record

- **Proposed congregation:** submitted to Daniel Martin, Circuit NZ-1. Receipt of the first S-51 is evidenced by his request for the separate Ashburton form.
- **Ashburton host congregation:** submitted to Daniel Martin, Circuit NZ-1, as requested.
- **Recordkeeping:** exact send dates are not currently recorded in the local project files.

Requirements and Evidence

Confirmed position: S-50 through par. 5 has been confirmed. Par. 6 is the remaining approval stage and can be completed only when the branch office communicates its decision and instructions.

Requirement	Current evidence	Status / what remains
S-50 par. 2(1) A significant language-dependent population lives near the Kingdom Hall, without excessive travel or search work.	• 1,605 Filipino people in Ashburton District in 2023 Census data cited in the email draft • 2.17% of Ashburton District residents able to speak Tagalog in cited 2023 Census language data • Approximately 3,000 Filipinos in Mid Canterbury reported as an informed local estimate	Confirmed Confirmed in the S-50 review. Preserve the official district figure and the wider-area estimate as different measures.
S-50 par. 2(2) Publishers depend on the language for spiritual food or language-dependent Bible students attend and progress toward baptism.	• 35 publishers listed in the August proposal • 46 Bible studies printed in the June S-303 • 34 progressive studies reported separately	Confirmed Confirmed in the S-50 review. The reporting date for the separate figure of 34 progressive studies remains a data-provenance question, not an S-50 blocker.
S-50 par. 2(3) A solid core of spiritually mature publishers is fluent in the language.	• 31 active publishers in the August proposal • 10 regular pioneers in the August proposal	Confirmed Confirmed in the S-50 review.
S-50 par. 2(4) Enough appointed men, including at least one elder, can provide shepherding, handle meeting parts and lead the ministry; most are fluent.	• 5 elders and 2 ministerial servants printed in the August proposal • The June S-303 describes host-congregation strain and shepherding/training difficulty	Confirmed Confirmed in the S-50 review; the supporting counts remain recorded as evidence.
S-50 par. 2(5) The congregation can conduct all weekly meetings locally without depending on JW Stream.	• June S-303: weekend meetings every week • June S-303: full Tagalog midweek meeting once monthly and Tagalog CLAM twice monthly	Confirmed Confirmed in the S-50 review.

Requirement	Current evidence	Status / what remains
S-50 par. 2(6) The study Watchtower and Life and Ministry Meeting Workbook are available in Tagalog or another language in which most publishers are literate.	—	Confirmed Confirmed in the S-50 review.
S-50 par. 2(7) A Kingdom Hall or another appropriate meeting place is available.	• Working address: 262–264 Cameron Street, Ashburton 7700	Confirmed Confirmed in the S-50 review; the known meeting-place address remains recorded as evidence.
S-50 par. 3 Each publisher or family head freely decides which congregation the family will attend; no one is pressured.	—	Confirmed Confirmed in the S-50 review.
S-50 par. 5 The circuit overseer verifies the accurately prepared recommendation information before sending it to the Service Department.	• Proposed-congregation S-51 received and reviewed by the circuit overseer • Ashburton host-congregation S-51 sent to the circuit overseer	Confirmed Confirmed in the S-50 review. Both requested S-51 forms have been sent; remaining forms should follow current direction.
S-50 par. 6 Wait for branch approval and use the start date and further instructions in the approval letter.	—	Needs Confirmation Awaiting the branch office's approval decision, official start date, and further instructions. A proposed date is not approval to begin functioning.

What remains under S-50 par. 6

Wait for the branch office to state whether the new congregation is approved. Its letter will provide the official start date and further instructions. Until that direction is received, do not begin functioning as a congregation or treat a proposed date as approved.

Calculations

Calculation	Result	Formula	Caution
Active rate	88.6 percent	$\frac{31}{100} \div \frac{35}{100} \times 100$	35 is the total listed population, not automatically the S-51 Regular field.
Active publishers per appointed brother	4.4 publishers per appointed brother	$\frac{31}{(5 + 2)}$	A ratio does not prove language fluency or availability.
Bible studies per active publisher	1.48 studies per active publisher	$\frac{46}{31}$	The numerator and denominator come from different reporting dates.
Progressive share of reported studies	73.9 percent	$\frac{34}{100} \div \frac{46}{100} \times 100$	Use only after confirming the two figures cover the same reporting period.
Publisher growth from June representation to August list	6.1 percent	$\frac{(35 - 33)}{33} \times 100$	Compares represented/listed totals, not necessarily average active publishers.

Population evidence: the 1,605 census figure is for Filipino ethnicity in Ashburton District; the 2.17% figure is language ability; the approximately 3,000 figure is an informed local estimate for the wider Mid Canterbury area. They are useful together only when their different measures and geographies remain explicit.
