Baptism Pool
Checklist

GENERAL

Changing Rooms for both brothers and sisters are located Backstage. *The door to the baptism area must never be left unlocked while unattended.*

Once the baptisms are finished, floors should be properly dried prior to eliminate slip hazards. Towels have been provided for this in the Brothers' Changeroom, and a wet/dry vacuum is located in the cleaning room if needed.

CLEANING

The baptism department is responsible for the tidying of the Baptism Pool and changerooms immediately after the baptism. All cleaning supplies should be obtained from the cleaning room.

BAPTISM POOL

The baptism pool is preprogrammed and will automatically begin filling at 8:05am and begin draining at 1:30pm. The water level is pre-set and allows for comfortable immersion of all body shapes without overflowing. The temperature is set to 26 degrees.

Should an issue arise with the baptism pool, please contact the Assembly Hall Representative (AHR).

05

BAPTISM DEPARTMENT

Please complete the task lists below

START OF THE DAY

- ☐ Wipe out the tub prior to filling
- ☐ Note that the tub starts filling at 8:05am and starts draining at 1.30pm
- ☐ Ensure door to baptism area is closed when water is present in baptism pool

END OF THE DAY

- ☐ Wipe baptism pool dry (including around drain) and vacuum/mop up any water on floor around pool (towels in Brothers' changeroom)
- ☐ Place used Assembly Hall towels in laundry bin
- ☐ Wipe the floor
- ☐ Clean glass barriers using Aquamix #2 and blue microfiber cloth
- ☐ Sanitize immersion tub and handrails using Aquamix #7 and blue microfiber cloth
- ☐ Tidy baptism changing rooms and clear of belongings (to Lost & Found)
- ☐ Turn off lights
- ☐ Return this checklist to event oversight
