Event Oversight Checklist

ENTRY

An Assembly Hall Representative (AHR) will open the gates and door by 7.00am.

Event oversight will decide whether gates should be closed while the program is in session or not. The automated rear gate should be operated only by authorised personnel. Requests to open and close this gate should be to the AHR. The gate has been damaged due to ones trying to open the gate manually.

The AHR will disable the security system and allow entry through the main doors in the foyer. An attendant should be arranged to arrive at 7:00am to take responsibility for access of the facility from the AHR.

EMERGENCY

See the CO-161-E Assembly and Convention Emergency Preparedness Plan.

The Assembly Hall is fitted with an extensive fire safety sprinkler system. These sprinklers will activate automatically should the need arise. If the system activates, the emergency evacuation procedure should be carefully followed.

TELEPHONE

There is a telephone in First Aid. This is primarily for emergency calls.

ASSEMBLY HALL REPRESENTATIVE

The AHR will be present during an event to assist with any operational and maintenance matters.

The AHR is responsible to:

- Open facility and lock up facility
- Disarm security system and arm security system
- Air conditioning
- General lighting of the facility

ASSEMBLY OVERSEER/CONVENTION COMMITTEE

It is the responsibility of Event Oversight to arrange for equipment to be turned on and off at the end of an event. Event oversight has the prerogative to turn lights on and off as they wish.

AIR-CONDITIONING

The air-conditioning system is controlled through a Building Management System, accessible by computer. It is pre-programmed for your event.

For best results, it is recommended that the doors between the airlock and the foyer, as well as the doors between the foyer and the auditorium, remain closed to ensure the auditorium is air-conditioned satisfactorily. To avoid overstressing the system and possible system failure, it is important that exterior doors are not propped open.

Should any operational problems occur or adjustments to temperature need to be made, the Assembly Overseer/Convention Coordinator should contact the AHR.

LIGHTING

Please make sure that the following lights have been switched on prior to 8:00am:

Area	Switch Location
Public Areas	Fire/alarm panel office
Stage Lights (no lighting adjustment possible)	Backstage on stage left - usually the AHR will care for this
Backstage	Both sides stage left and right by doors
Baptism Pool	Backstage at stage left
Dining Room	To the right of the auxiliary auditorium doors
Auxiliary Auditorium	In front of the sound desk

DEPARTMENT KEYS

Keys are available for the various department overseers in the Convention Committee Office.

It is the responsibility of event oversight to ensure that all keys are returned at the conclusion of the event each day.

The AHR for your event will provide initial access to the AH at the start of each day.

PROGRAMS

If programs are available for your assembly, they will be provided at the Attendants Desk, located in the foyer. Programs are usually “nested” and should be de-nested and folded by event personnel, ready for distribution.

EQUIPMENT

VESTS

High visibility safety vests are located in the closet, behind the Lost & Found Desk, in the foyer. These vests should be returned at the end of each day.

BARRIERS

Barriers that can be used to control access to different areas of the facility can be found in located in the closet, behind the Lost & Found Desk, in the foyer.

SIGNAGE

Signage for use by the Attendants Department can be found at the Attendants Desk, in the foyer.

Signage for the Cleaning Department is stored in the cleaning room.

PARKING CONES

A large supply of parking cones are available in the Parking Kiosk. These may be used to assist with directing of traffic or to restrict access to certain areas. These cones should be returned to the Parking Kiosk at the conclusion of the event.

FURNITURE

Stage furniture is available and always includes the key items visible on the stage.

Outdoor chairs are stored in the Dining Room and should be returned here at the end of an event. Outdoor tables are stored under the Dining Room verandah.

CLOSED CIRCUIT TELEVISION (CCTV)

A monitor has been installed at the Attendants Desk in the foyer for real-time viewing. If the monitor at the Attendants Desk is locked, please inform the AHR, who can unlock it for you.

MONITORS

The Assembly Hall has monitors that display the program in the following locations: Backstage, Chairman's Office, Accounts Office, Convention Committee Office, Foyer, First Aid, Parents Room, Dining Room, Auxiliary Auditorium and Parking Kiosk. Use the provided remotes to turn these on/off.

Additionally, there is one monitor in each of the Auditoriums which will display the program theme. These monitors will be operated by the AHR.

TWO-WAY RADIOS

Two-way radios are available for use by the parking department to enable any security concerns to be relayed immediately to Event Oversight. Only channel 25 should be used. In an emergency these radios could be of use to the emergency response team (ERT).

FAULTS/REPAIRS

Faults in any of the Assembly Hall systems should be reported to the AHR for your event.

If a piece of equipment is found to be damaged or an element of the building requires repair, please advise using the department checklists provided.

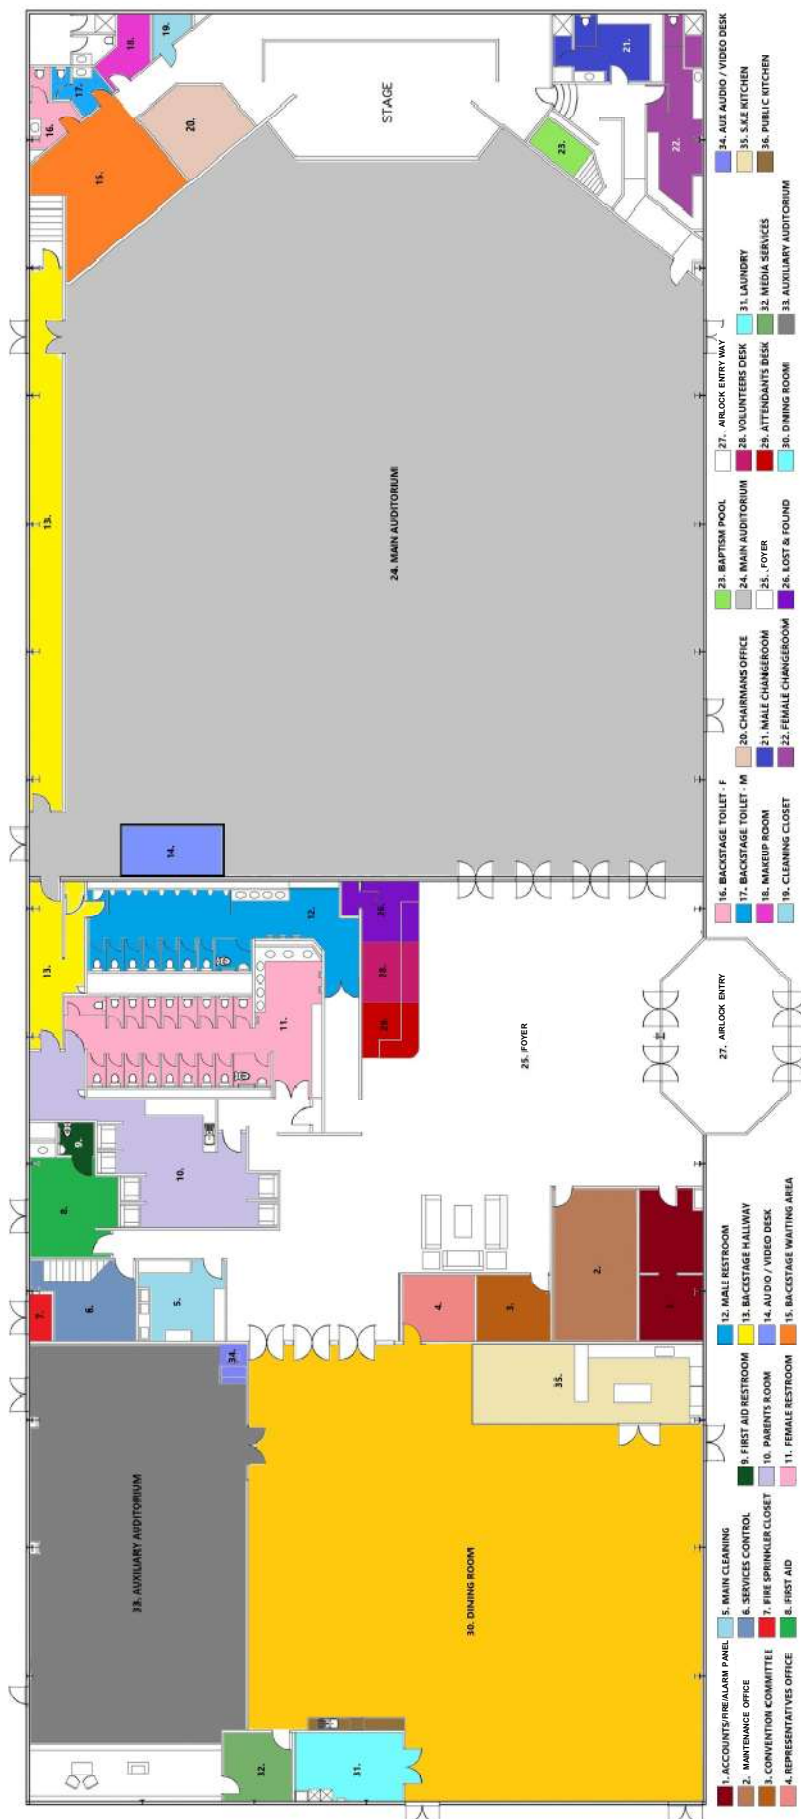

END OF EVENT

At the end of an event, each Department should use the checklists provided to make sure each area of the facility is cleaned and ready for the next event. Please return checklists to Event Oversight who will pass on to AHR.

FINAL INSPECTION

After each Department has completed their checklist, Event Oversight should accompany the AHR to conduct a final inspection of the facility.

SOUTH AUCKLAND ASSEMBLY HALL DEPARTMENT

01

EVENT OVERSIGHT

Please complete the task lists below

PRE-EVENT CHECKLIST FOR ADMINISTRATION

- ☐ Meet with Assembly Hall Representative (AHR) for any specific information needed for the event
- ☐ Inform AHR of rear gate (Old Wairoa Rd) opening and closing schedule
- ☐ Inform AHR if the auxiliary auditorium will be used for the event
- ☐ Distribute department checklists to each department before first session of event
- ☐ During the event, please inform the AHR immediately of any damage or issues as these arise

END OF ASSEMBLY CHECKLIST FOR AHR

- ☐ Attend walk-through with cleaning department Overseer and AHR
- ☐ Confirm all keys returned to pinboard in Convention Committee Office (at the end of each day of event)
- ☐ Remove all paperwork and event specific paperwork
- ☐ Return all completed department checklists to AHR

Items broken or requiring attention:

1. _____
2. _____
3. _____
4. _____

Other helpful comments for future events:

Contribution Boxes

Safe

Cleaning

Checklist

Contribution Boxes

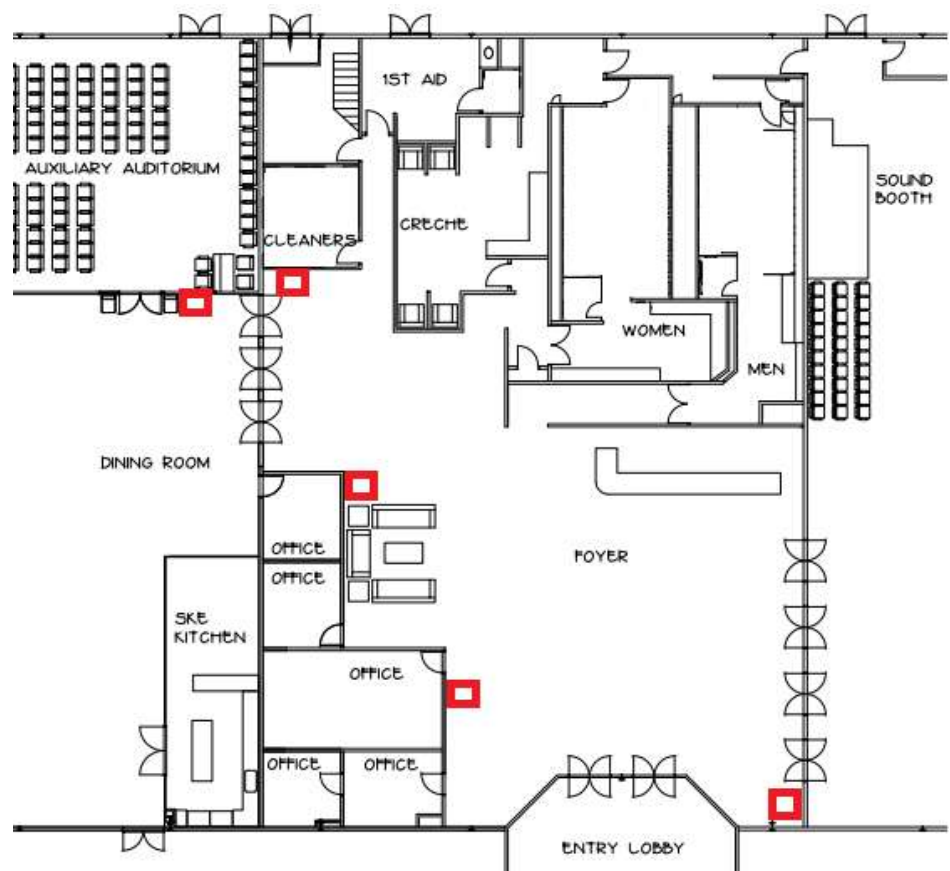

Safe
Cleaning
Checklist

CONTRIBUTION BOXES

Contribution boxes are located at the positions marked in red on the diagram below, namely:

- Foyer x 4
- Dining Room x 1

Two sets of keys to the contribution boxes and the Audit Office will be provided to the Accounts Overseer by the Assembly Overseer/Convention Coordinator. All the contribution boxes must be cleared and lids left open at the close of each assembly/each day of the convention.

Contribution Boxes

Safe

Cleaning

Checklist

SAFE

A steel safe is provided. Only the key should be used to lock and unlock the safe. The combination must not be changed. At the conclusion of the Assembly/Convention, all monies must be removed from the AH.

CLEANING

The Accounts department is responsible for the cleaning of the accounts room at the end of the assembly day/each day of the convention.

All cleaning equipment is stored in the cleaning room.

02

ACCOUNTS DEPARTMENT

Please complete the task lists below

ACCOUNTS ROOM & FIRE/ALARM PANEL OFFICE CLEANING

- ☐ Tidy desk, wipe desks with Aquamix #7 spray and blue microfiber cloth
- ☐ Sanitise light switches, door handles and remotes using Aquamix #7 and blue microfiber cloth
- ☐ All items neatly stored away in drawers
- ☐ Remove schedules/paperwork from notice board
- ☐ Empty rubbish bins
- ☐ Vacuum carpet floors
- ☐ Spot vacuum chairs

FINAL CHECKLIST

- ☐ Ensure that all contribution boxes have been cleared and left open
- ☐ Ensure that all keys have been returned to Assembly Overseer/Convention Coordinator
- ☐ Check that no monies have been left in the safe and left open
- ☐ All money and paperwork removed and in the care of the accounts overseer
- ☐ Accounts room has been cleaned
- ☐ Lights turned off
- ☐ TV turned off
- ☐ Return this checklist to event oversight

SECURITY

The Attendant Department is responsible for security of the Assembly Hall and all attendees during an event. Attendants should lock and unlock all external doors as directed by event oversight.

The Assembly Hall Representative (AHR) will open the entry gates at 7:00am and will disable the security system and allow entry through the main doors in the foyer. An attendant should be arranged to arrive at 7:00am to take responsibility for access of the facility from the AHR.

BADGES

'Attendant' badges for identification are available at the attendant desk.

An attendant badge register is provided for badge holders to check in and out. There are a total of 30 attendant badges.

VESTS

Yellow safety vests are available for the attendant department volunteers.

These are located in the cupboard, behind the Lost & Found desk in the foyer. These should be returned and neatly hung at the end of each day.

[Security](#)[Badges](#)[Vests](#)[Seating](#)[Overflow Seating](#)[Smaller Assemblies and Conventions](#)[Prams and Strollers](#)[Out of Bounds Areas](#)[Lock Up](#)[Checklist](#)[Seating Plan](#)

SEATING

Following is the seating normally available in various areas of the complex:

Section	No.
Main auditorium	1088
Elderly & Infirm	44
Auxiliary Auditorium	167
Dining Room	224 (plus 4 booths)

Moveable seating must, if moved, be returned to its original position prior to final inspection unless instructed otherwise.

OVERFLOW SEATING

If no simultaneous foreign language event or theocratic schools are occupying the Auxiliary Auditorium, it is recommended this be used first for overflow seating. If both Auditoriums are full, seating may be re-arranged in the Dining Room (and additional seating put out) to allow the program to be viewed via the monitors available.

SMALLER ASSEMBLIES AND CONVENTIONS

Some events may also choose to rope off areas that they feel will not be used. Barriers are available in the cupboard behind the Lost & Found desk, in the foyer. All items are to be returned to the store at the end of the event.

Conventions

Prams and Strollers

Out of Bounds Areas

Lock Up

Checklist

Seating Plan

PRAMS AND STROLLERS

For security and safety reasons, prams and strollers are not permitted inside the Auditoriums or seating areas.

A designated area to store prams and strollers may be made available by event oversight in the airlock entry area.

OUT OF BOUNDS AREAS

Attendants should ensure no one walks on the gardens, attempt to climb the fencing or access the private residences on the Assembly Hall property.

There are several large trees and fruit trees on the property that pose a fall risk if children are allowed to climb these.

Additionally, children should not be allowed to play around the water tanks or electrical sub-station, located on the eastern side of the AH, outside First Aid.

LOCK UP

The attendant department is responsible to ensure that the building is secure at the end of each day. Every door must be checked to ensure it is locked. All push bars on exterior should be in the locked position.

The AHR will activate the security system on your departure.

03

ATTENDANT DEPARTMENT

Please complete the task lists below

START OF DAY

- ☐ Provide security for all open doors
- ☐ Put toilet barricades away in cupboard behind attendant desk
- ☐ Rope off any areas not needed in auditorium (smaller, typically non-English events only)
- ☐ Hold team meeting - 7:45am
- ☐ Open all doors - 8:00am

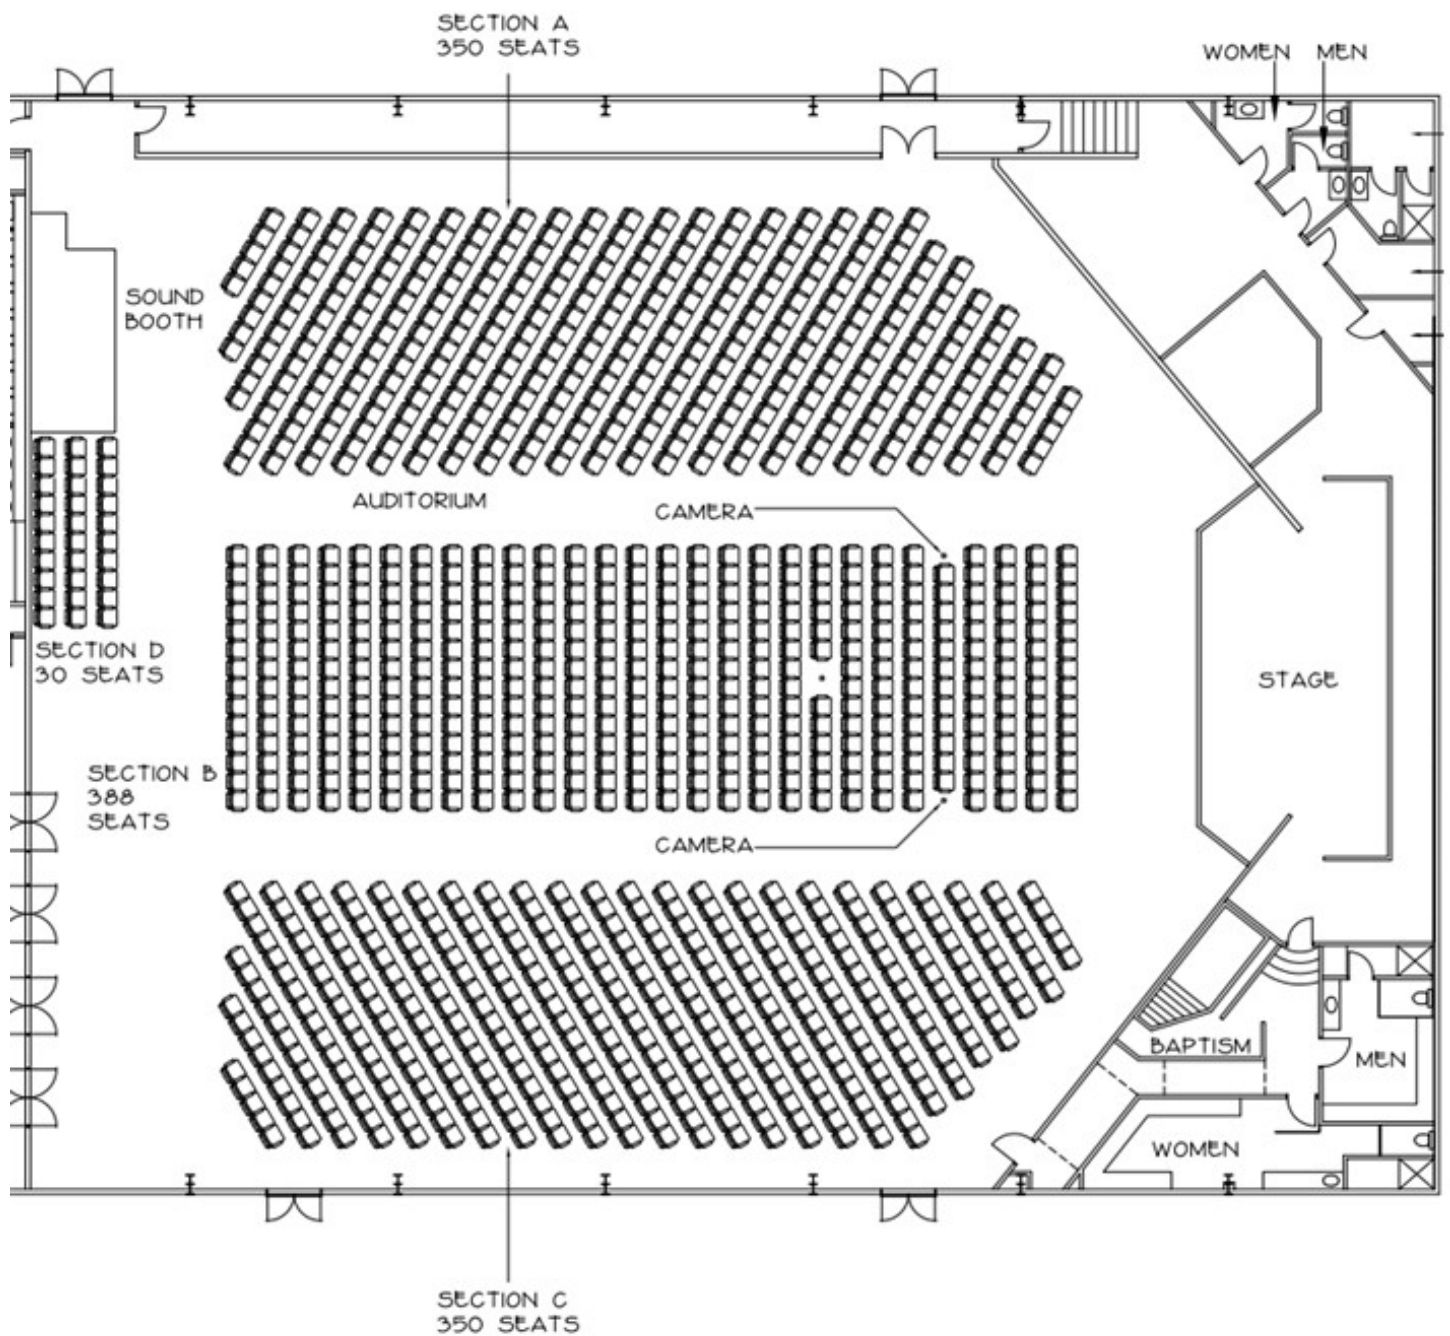

DESK/OFFICE

- ☐ All yellow safety vests returned and stored neatly in cupboard
- ☐ All signs returned and stored neatly at the desk
- ☐ Return attendant badges and complete attendant badge register
- ☐ TV turned off
- ☐ Return Key to Assembly Overseer/Convention Committee office

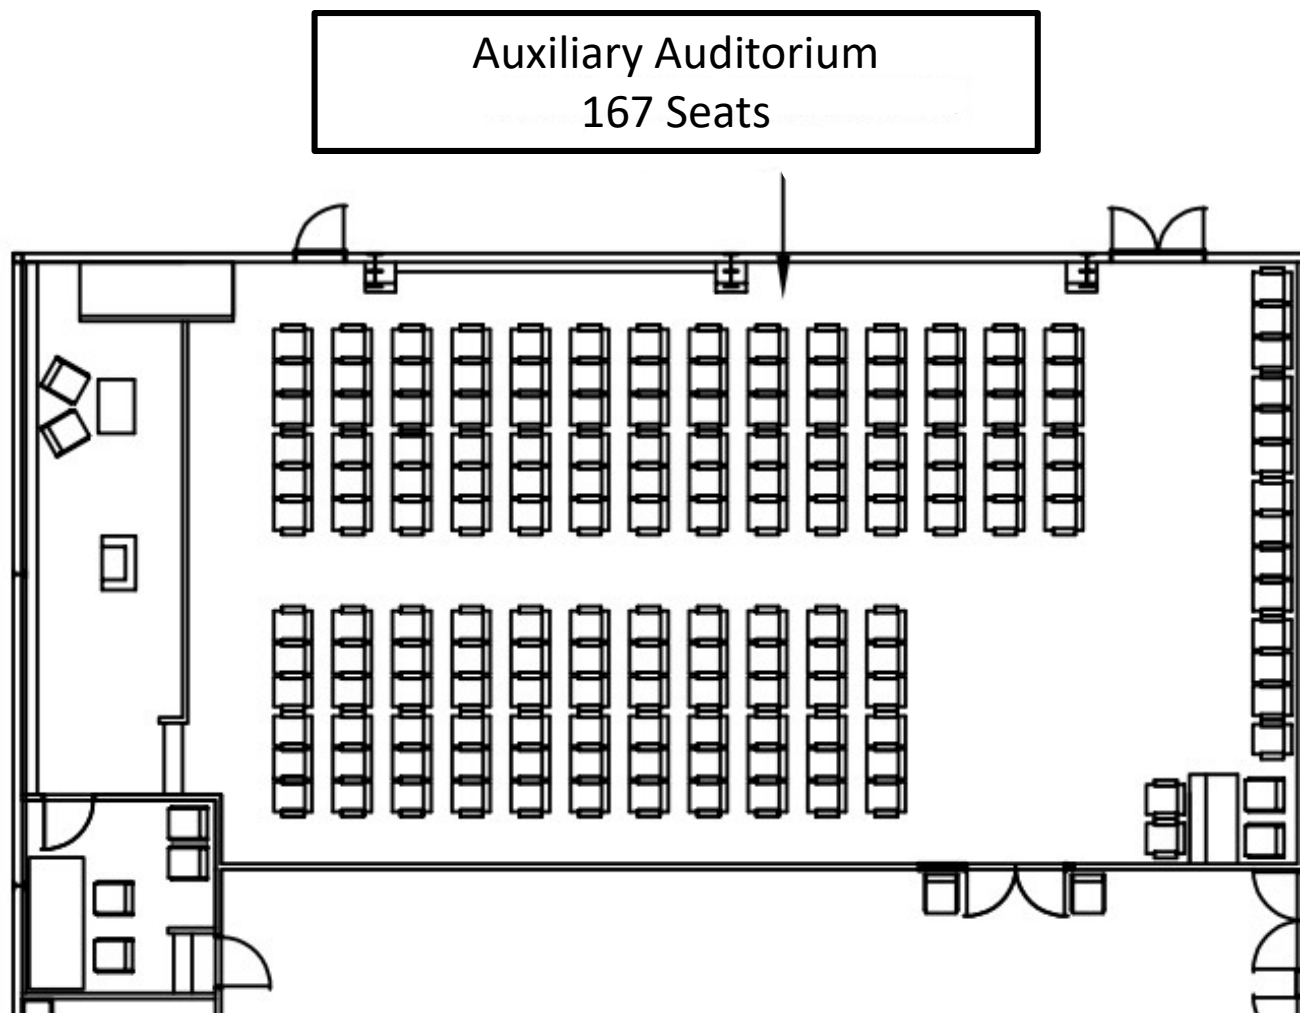

FINAL CHECKLIST

- ☐ Remove all items left behind from the main auditorium, infirm seating room, auxiliary auditorium, baptism changerooms, outside eating areas and all other seating/milling areas and take any items to the Lost and Found department
- ☐ Moveable seating must, if moved, be returned to its original position
- ☐ Clear the building of all persons other than assembly personnel and those travelling with them
- ☐ Close all internal doors where possible
- ☐ Lock all exit doors
- ☐ Return this check list to event oversight

GENERAL

The Audio/Video Department is located at the rear of the main auditorium. Brothers who operate the audio mixer, computers, cameras, and video equipment should receive adequate training and clearly understand their role.

Monitors are provided in most departments to allow volunteers to view the program while caring for an assignment.

There are lines on the floor of the stage to show where demonstrations and interviewees may stand.

No modifications (including colour coding or labelling) should be made to the audio system without prior approval from the Assembly Hall Overseer.

Any observations as to improvement are welcomed, and these may be conveyed to the Assembly Hall Representative (AHR) who can report to the Assembly Hall Overseer (AHO). The Local Design/Construction Department (LDC) makes any final decisions in this regard.

LIGHTING

The stage lights are activated from a cabinet in the backstage area on the stage left side. This will be typically turned on by the AHR at the beginning of the day.

The locked cabinet does not need to be opened as the stage lighting is pre-set.

At the end of the day turn the large isolator switch from ON to OFF located outside the cabinet.

STAGE FURNITURE

Adequate furniture is on hand for each event.

The event chairman would usually advise the Assembly Hall Overseer before the event if additional equipment is needed.

POWER SUPPLY

The power supply is controlled by a single switch, located at the right side of the A/V Desk. Individual pieces of equipment at the desk should not be turned on and off at their “standby power” switches.

AUDIO/VIDEO DESK

To avoid distracting the operators, only trained brothers assigned to operate the equipment should be admitted to the Audio/Video Department area.

To protect the equipment, no food or drink should be taken into this area and no foreign components, systems, leads or cords should be introduced.

THEME MONITORS

The Assembly / Convention theme is displayed on a monitor in each auditorium operated by the Assembly Hall Representative (AHR). The main auditorium’s theme monitor is wall-mounted next to the platform on the stage right side. In the auxiliary auditorium, the monitor is also mounted on the wall in the corner on the left side of the auditorium.

PROGRAM MONITORS

Monitors that provide a live view of the program are available in the areas listed below. Event Oversight may determine which of these monitors are used. The monitors remain on the appropriate input at all times and may be switched on by using the remote controls, located on the A/V Desk and in the backstage A/V Cabinet. Please return remotes to these locations.

Locations of Monitors		
Backstage Waiting Areas (x3)	Baptism Waiting Area	Foyer
Chairman’s Office (Backstage)	Dining Room (x2)	First Aid
Auxiliary Auditorium (x2)	Auxiliary Chairman’s Office	Parents Room
Convention Committee Office	Audit Office	Parking Kiosk

SOUND DISTRIBUTION

Sound to Foyer

Program sound is provided via fixed speakers in the foyer, with volume levels adjustable at the Sound Console. This zone is labelled “foyer” on the mixer.

Sound to Offices & Backstage

Program sound is provided via fixed speakers backstage and in the offices throughout the AH, with volume levels adjustable at the Sound Console. This zone is labelled “All Other Areas” on the mixer. In addition to fadeable sound levels at the Sound Console, volume can individually be controlled from dials in each of the offices.

Sound to Dining Area

Program sound is available and provided via fixed speakers in the Dining Room, with volume levels adjustable at the Sound Console. This zone is labelled “Cafe” on the mixer. Event Oversight may determine whether the program should be transmitted here.

SYSTEM STARTUP

Please note the following procedure to start the A/V System each day:

- Remove dust covers from all equipment
- Switch A/V Desk Main Power from 0 to 1 - see picture 1
- Power up Desktop computers
- Switch A/V Desk Main Power from 1 to 2
- Proceed to Backstage A/V cabinet
- Power up Video Processors by turning on the labelled switch - see picture 2
- Wait 30 seconds
- Power up LED screens by turning the labelled isolator switches to ON - see picture 2

Important Note: Wait 60 seconds for LED screens to fully display. If a screen is displaying improperly after 60 seconds or more, power cycle the problematic screen by switching it off at the isolator, waiting 30 seconds, and switching it back on.

SYSTEM SHUTDOWN

Please note the following procedure to shutdown the A/V System each day:

- Power down LED screens by turning the isolator switches to OFF
- Power down Video Processors by turning off the labelled switch
- Switch A/V Desk Main Power from 2 to 1
- Shutdown HP Desktop computers
- Switch A/V Desk Main Power from 1 to 0
- Replace dust covers on all equipment

Important Note: Please do not turn power switches off on individual pieces of equipment.

FM BROADCAST

A radio broadcasting device is located in the WiFi and Radio cabinet, located in the fire/alarm panel office. This device is set up to transmit the program via FM frequency 107.7.

Typically, the AHR will operate this equipment.

COMMUNICATION HEADSETS

Six (6) “David Clark” wireless headsets are available for use by the A/V and Platform Teams.

These headsets are stored in the Backstage A/V cabinet. Battery charging stations are set up at the right side of the A/V Desk.

Please ensure batteries are placed on charge at the end of each day, and headsets are properly stored in their cases and returned to the Backstage A/V cabinet at the end of the event.

SYSTEM LAYOUT

Six (6) microphone sockets are available on the platform. Sockets are labelled on the input box (located at front/centre of stage) and these reflect the inputs at the Sound Console. Microphone leads are permanently connected on the platform.

MICROPHONES

Five (5) wired microphones are available for use. These are stored in the Backstage A/V cabinet.

While microphone leads should remain neatly coiled up on the platform and booms in position, please return the microphones to their cases and store in the cabinet at the end of the event.

Any microphone failure or other sound problems must be referred to the overseer of the department, who will inform the AHR.

WIRELESS MICROPHONES

Four (4) wireless (or roving) microphones are available for use. They are stored, along with their respective charging docks, at each side of stage access. These microphones are identified by a coloured band around each unit which relates to a label on the Sound Console. The receivers for these microphones are located at the A/V Desk and will power on with the rest of the system.

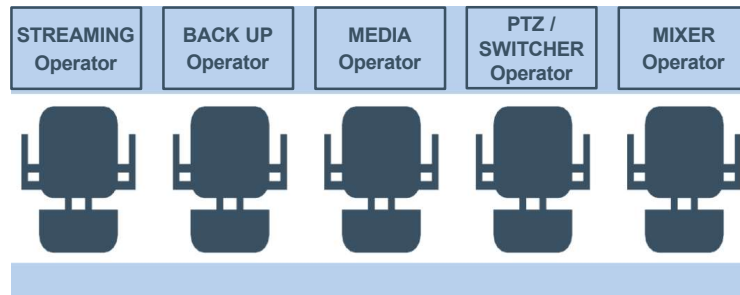

Please return these microphones to their charging docks after use.

EMERGENCIES

If an emergency requires evacuation of the building, the Chairman may authorize the Audio/Video Department to keep the sound system alive for evacuation announcements and instructions

AUDIO/VIDEO DESK SETUP

AUXILIARY AUDITORIUM

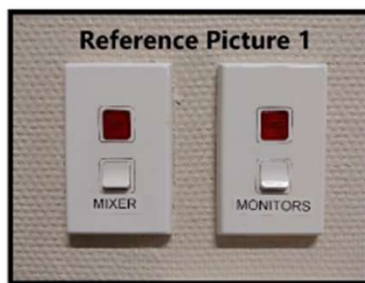

The Auxiliary Auditorium includes a theme monitor and two (2) program monitors, and can be configured to be an extension of the program in the main auditorium or be used for an independent program.

Remotes for the theme monitor and two (2) program monitors are stored in the auxiliary AV Desk.

Extension of Main Auditorium

To extend the program from the main auditorium:

- Turn on power isolation switches to both “MIXER” and “MONITORS” (see picture 1)
- Select input 2 on the video input switcher (see picture 2)
- Adjust the slider labelled “Main Hall” on the mixer as desired - this will allow sound from the main auditorium to be transmitted into the Auxiliary Auditorium

AUXILIARY AUDITORIUM

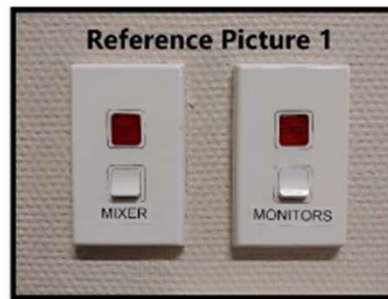

Independent Program

For an independent program in the auxiliary auditorium:

- Turn on power isolation switches to both “MIXER” and “MONITORS” (see picture 1)
- Select input 1 on the video input switcher (see picture 2)
- Use the computer connected to the auxiliary AV Desk for media playback.
- Use the auxiliary AV Desk mixer and associated sound equipment to control and adjust sound and microphone output.

Important Note: Please do not turn off individual pieces of equipment, such as the mixer or amplifier.

Use the isolation switch in picture 1 to power off the equipment. The laptop may be shutdown normally.

TROUBLESHOOTING

If the system or part of the system does not appear to be functioning or a repair is required, please contact the Assembly Hall Representative (AHR). Adjustments to the amplifiers are not permitted.

04

AUDIO/VIDEO DEPARTMENT

Please complete the tasks list below

START OF THE EVENT (AUDIO)

- ☐ Remove dust covers on desk equipment
- ☐ Power up AV Desk as per "System Startup"
- ☐ Power up big screens as per "System Startup"
- ☐ Turn on monitors throughout AH as directed by Event Oversight
- ☐ Test sound and video equipment

FINAL CHECKLIST

- ☐ Audio/video desk is left neat and tidy
- ☐ Replace dust covers on desk equipment
- ☐ Make sure all other audio equipment and TVs are switched off
- ☐ Ensure the AV systems have been turned off in auxiliary auditorium
- ☐ Power down AV Desk as per "Shutdown Procedure"
- ☐ Power down big screens as per "Shutdown Procedure"
- ☐ Remove all schedules, outlines etc
- ☐ Remove batteries from headsets, place on charge, and return headsets to cases
- ☐ Store headsets in Backstage AV cabinet
- ☐ All personal belongings removed
- ☐ Note any potential problems that may need attention prior to the next event and advise Event Oversight
- ☐ Return this checklist to Event Oversight

04

PLATFORM DEPARTMENT

Please complete the tasks list below

START OF THE EVENT (PLATFORM)

- ☐ Arrange stage furniture as required for the event
- ☐ Connect microphones to booms (Chairman and Speaker)

FINAL CHECKLIST

- ☐ Tidy stage and backstage areas
- ☐ Neatly coil leads and leave them plugged in on the platform
- ☐ Return microphones to protective cases and store in Backstage AV cabinet
- ☐ Return wireless microphones to charging stations
- ☐ Return stage furniture to original locations, with speaker's lectern in centre stage
- ☐ Interview tables and chairs to be left tidy backstage
- ☐ Remove all redundant paperwork – including from the noticeboard
- ☐ Ensure that the backstage waiting areas are tidy and well presented
- ☐ All personal belongings removed
- ☐ Ensure that all platform and backstage lighting is turned off
- ☐ Make sure all other audio equipment and TVs are switched off
- ☐ Return this checklist to event oversight

BAPTISM DEPARTMENT

General

Cleaning

Baptism Pool

Checklist

General
Cleaning
Baptism Pool
Checklist

GENERAL

Changing Rooms for both brothers and sisters are located Backstage. *The door to the baptism area must never be left unlocked while unattended.*

Once the baptisms are finished, floors should be properly dried prior to eliminate slip hazards. Towels have been provided for this in the Brothers' Changeroom, and a wet/dry vacuum is located in the cleaning room if needed.

CLEANING

The baptism department is responsible for the tidying of the Baptism Pool and changerooms immediately after the baptism. All cleaning supplies should be obtained from the cleaning room.

BAPTISM POOL

The baptism pool is preprogrammed and will automatically begin filling at 8:05am and begin draining at 1:30pm. The water level is pre-set and allows for comfortable immersion of all body shapes without overflowing. The temperature is set to 26 degrees.

Should an issue arise with the baptism pool, please contact the Assembly Hall Representative (AHR).

05

BAPTISM DEPARTMENT

Please complete the task lists below

START OF THE DAY

- ☐ Wipe out the tub prior to filling
- ☐ Note that the tub starts filling at 8:05am and starts draining at 1.30pm
- ☐ Ensure door to baptism area is closed when water is present in baptism pool

END OF THE DAY

- ☐ Wipe baptism pool dry (including around drain) and vacuum/mop up any water on floor around pool (towels in Brothers' changeroom)
- ☐ Place used Assembly Hall towels in laundry bin
- ☐ Wipe the floor
- ☐ Clean glass barriers using Aquamix #2 and blue microfiber cloth
- ☐ Sanitize immersion tub and handrails using Aquamix #7 and blue microfiber cloth
- ☐ Tidy baptism changing rooms and clear of belongings (to Lost & Found)
- ☐ Turn off lights
- ☐ Return this checklist to event oversight

GENERAL

All cleaning supplies are provided by the Assembly Hall (AH) and no additional chemicals or items of equipment should be used without the Assembly Hall Overseer's approval.

There is a main cleaning room (located off the main foyer) and a secondary cleaning room (located backstage). The main cleaning room contains everything needed to complete a thorough clean of the AH. Please take care to use this equipment as designed and clean it properly after use.

If cleaning supplies are running low, or if any equipment is missing or not functioning, please notify the Assembly Hall Representative (AHR). All maintenance issues should be reported to the AHR in writing. For guidance on the required cleaning tasks for each area, please refer to the final checklists provided at the end of this section.

PRE-EVENT CLEAN

The facility will be thoroughly cleaned by the pre-event volunteers prior to handover for all events. If there are any concerns regarding the condition of the facility, please contact the AHR.

CHEMICALS

Safety Data Sheets (SDS) for all chemicals used at the Assembly Hall are available in each cleaning room. Please ensure volunteers are aware of their location before using any chemicals.

Ensure all chemicals are stored above 1.2 metres at the start of an event.

For simplicity, a small range of products are used at the AH. Only chemicals provided by SAAH should be used for cleaning. The provided products are part of the Aquamix range:

- ☐ Aquamix #2 - Glass & Window Cleaner
- ☐ Aquamix #3 - Toilet & Shower Cleaning
- ☐ Aquamix #7 - Cleaner Sanitizer
- ☐ Aquamix #10 - Neutral Floor Cleaner

CLOTHS

Enough cloths have been provided to clean for a full event, including a Regional Convention, without washing. Used cloths should be placed in the provided laundry bins and will be washed by Assembly Hall personnel. Please allocate appropriate numbers of cloths for each day, ensuring a larger supply for the end of event clean. The following has been provided:

- Blue microfiber cloths (Glass & mirrors, general surfaces; desks, counters, push plates & vanities)
- Green microfiber cloths (Dining room tables, kitchen sink and countertops)
- Red microfiber cloths (Toilets pans, seats, and cisterns)

MOPS

The coloured mops are to be used for the following purposes:

Area	Colour
Dining room/Foyer	Blue mop cloth
Bathrooms	Red mop cloth
Drying wet areas	Blue/White striped cloth

AQUAMIX FILLING STATION

A filling station for buckets and bottles is fitted inside the main cleaning room. This system is plumbed into the cold water and is self mixing.

Contact the AHR to restock any empty filling stations.

SANITARY BINS

Sanitary bins are located in marked cubicles of the Sisters' Toilets, in the First Aid Bathroom, Backstage Sisters' Toilet and in the Sisters' Changeroom. These sanitary bins are the "Pod Petite" system. Please carefully follow the instructions "How To Service A Pod Petite" on the notice board in the cleaning room and included in these guidelines.

Bagged waste from the sanitary bins should be immediately transferred to the red skip bin outside the AH.

RUBBISH BINS

Attendees are encouraged to take their own rubbish with them. Therefore, rubbish bins are provided in the areas listed below and are only for use by Departments. All waste should be transferred into the large red skip bin, located outside the First Aid Department.

- ☐ Main Cleaning Room
- ☐ First Aid Bathroom
- ☐ Parents Room
- ☐ Sisters' Toilets
- ☐ Brothers' Toilets
- ☐ Convention Committee Office
- ☐ Audit Office
- ☐ Chairman's Office (Backstage)
- ☐ Secondary Cleaning Room
- ☐ Make-Up Room
- ☐ Sisters' Toilet (Backstage)
- ☐ Brothers' Toilet (Backstage)
- ☐ Sisters' Changeroom
- ☐ Brothers' Changeroom

CLEANING SIGNS

Cleaning signs can be placed outside the toilet blocks while cleaning is in progress and while the floors are wet after mopping. Please return signs to the cleaning room once the floors are dry.

VACUUMS

There are several different types of vacuum cleaners that can be used:

- 6 x Pulman (Blue) backpack vacuum cleaners
- 5 x Vento (Orange/Grey) floor vacuum cleaners - Hoses should remain connected
- 3 x SmartVac (Blue/Grey) upright vacuum cleaners - Not for use between chairs in Auditoriums
- 1 x Karcher (Yellow/Black) Wet/Dry vacuum - Liquid spills only Vacuum

The vacuum cleaner dust bags will be replaced by Assembly Hall personnel.

WINDOWS AND GLASS DOORS

For large glass areas (e.g., dining room windows, airlock entry):

- Use the provided equipment at the Aquamix #2 filling station to fill the two large blue buckets.

For mirrors and internal doors (e.g main auditorium doors, auxiliary auditorium doors and doors from the foyer into the dining room):

- Use the pre-mixed spray bottles of Aquamix #2 and blue microfiber cloths.

CHAIR/CARPET STAINS

To prolong the life of the carpet, it is important that any stains are given prompt attention.

When cleaning marks from the carpet (or other fabrics), the following rule should be observed:

- Please do not use chemicals. Damp clean cloth and hot water only
- Do not rub, rubbing spreads the mark and forces it deeper into the carpet (fabric)
- Blot stains with a clean cloth until as much of the mark is soaked up as possible

Please ensure all volunteers know and apply the above information.

If the stain is still visible at the end of the day, please advise the AHR for him to organise further treatment with the correct chemicals and equipment.

SUPPLIES

The main cleaning room contains a large quantity of supplies to replenish various rooms throughout the Assembly Hall. Should these supplies be depleted, contact the AHR, who will provide additional replenishments. The products available in the Cleaning Rooms include:

- ☐ Toilet tissue rolls
- ☐ Paper towel packs
- ☐ Disposable gloves
- ☐ Disposable plastic aprons
- ☐ Liquid hand soap
- ☐ Petite pod (Sanitary bin) replacement cartridges
- ☐ Rubbish bin liners

BACKSTAGE CLEANING ROOM

This cleaning room contains a few pieces of equipment for cleaning backstage, along with some supplies for restocking the backstage bathrooms and changerooms. The store contains:

- ☐ 2 x Vento (Orange/Grey) floor vacuum cleaners
- ☐ 2 x Red/Silver flat head mops
- ☐ Blue microfiber cloths (surfaces and glass/mirrors)
- ☐ Red microfiber cloths (toilets pans, seats, and cisterns)
- ☐ Keys for opening soap dispensers/toilet paper holders
- ☐ Limited stock of supplies listed above

TOILETS

Regular cleaning of toilets can help prevent the transmission of disease and remove unpleasant odours. Particular attention should be given to the disinfecting of toilet bowls, seats, cistern flush buttons, cubicle floors and door handles, taps and push plates. A diagram is provided in these guidelines.

Red mops and cloths are for toilet floor areas only. Floors should be vacuumed prior to mopping to remove paper, hair, and other contaminants.

Disposable gloves should always be worn by volunteers when cleaning toilets. Plastic aprons are also provided for this purpose.

URINALS

Scented mesh screens are used in the urinals. These are very effective at reducing splashes and therefore reducing smell however, hair is easily trapped in the mesh. If necessary, these mesh screens can be placed in a bucket and taken to the cleaning room to be rinsed off in the cleaners sink.

06

CLEANING DEPARTMENT Stage & Baptism Area

Please complete the tasks list below

BAPTISM POOL

- ☐ Check that Baptism Pool (including around drain) and floor is dry (the Baptism department will sanitize the tub and handrails)
- ☐ Check that glass barriers are clean. If cleaning is required use Aquamix #2 and blue microfiber cloth

PLATFORM

- ☐ Wipe down speaker stand and lectern
- ☐ Vacuum carpet floors

CHAIRMANS OFFICE

- ☐ Wipe down all furniture and cupboards (including inside)
- ☐ Vacuum carpet floors
- ☐ Remove schedules/paperwork from notice board
- ☐ Empty rubbish bin
- ☐ Sanitize door handles and light switches using Aquamix #7 and blue microfiber cloth

BACKSTAGE WAITING AREA

- ☐ Wipe down all furniture
- ☐ Spot vacuum chairs
- ☐ Vacuum all carpet floors areas including corridor between stage access points
- ☐ Sanitize door handles, light switches etc using Aquamix #7 and blue microfiber cloth
- ☐ Remove schedules/paperwork from notice board
- ☐ Left-over items taken to Lost & Found

MAKE UP ROOM

- ☐ Clean and wipe all surfaces
- ☐ Vacuum carpet floors
- ☐ Empty rubbish bin
- ☐ Sanitize door handles and light switches using Aquamix #7 and blue microfiber cloth

BACKSTAGE TOILETS (BROTHERS & SISTERS)

- ☐ Clean toilets. See “Toilet Cleaning Procedure”
- ☐ Clean glass/mirrors using Aquamix #2 and blue microfiber
- ☐ Wipe vanity tops and basins using Aquamix #7 and blue microfiber cloth
- ☐ Empty rubbish bin and sanitary bin
- ☐ Clean and refill both soap dispenser and paper towel dispenser
- ☐ Sanitize rubbish bin and sanitary bin exteriors
- ☐ Vacuum floors, then mop using Aquamix #10
- ☐ Sanitize door handles and light switches using Aquamix #7 and blue microfiber cloth

CHANGEROOMS (BROTHERS & SISTERS)

- ☐ Thoroughly clean toilets. See “Toilet Cleaning Procedure”
- ☐ Wipe toilet paper dispenser and refill any completely empty rolls
- ☐ Clean glass/mirrors using Aquamix #2 and blue microfiber
- ☐ Wipe vanity tops and basins using Aquamix #7 and blue microfiber cloth
- ☐ Empty rubbish bin and sanitary bin
- ☐ Clean and refill both soap dispenser and paper towel dispenser
- ☐ Sanitize rubbish bin and sanitary bin exteriors
- ☐ Vacuum vinyl floors, then mop using Aquamix #10 spray
- ☐ Sanitize door handles and light switches using Aquamix #7 and blue microfiber cloth
- ☐ Left-over items taken to Lost & Found

STAGE ACCESS HALLWAY

- ☐ Vacuum carpet floors
- ☐ Sanitize door handles

06

CLEANING DEPARTMENT Main Auditorium

Please complete the tasks list below

AUDIO/VIDEO DESK

- ☐ Wipe down desk, ledge, and computers using a dry blue microfiber only with no chemical
- ☐ Vacuum carpet floors
- ☐ Spot vacuum chairs
- ☐ Left-over items taken to Lost & Found

AUDITORIUM

- ☐ Vacuum all carpet areas including underneath seat rows
- ☐ Spot vacuum chairs and armrests
- ☐ Sanitize push plates and handles on doors using Aquamix #7 and blue microfiber cloth
- ☐ Clean glass in emergency exit doors and foyer doors using Aquamix #2 and blue microfiber cloth
- ☐ Left-over items taken to Lost & Found
- ☐ Straighten individual chairs in Elderly & Infirm seating area

06

CLEANING DEPARTMENT

Foyer, Airlock Entry, Offices

Please complete the tasks list below

FOYER

- ☐ Clean glass windows and doors using Aquamix #2 and provided window cleaning equipment
- ☐ Tidy Attendants/Lost & Found Desk and wipe down using Aquamix #7 and blue microfiber cloth
- ☐ Sanitize coffee table (including glass inlay)
- ☐ Spot clean lounges
- ☐ Vacuum all carpeted areas including under lounges
- ☐ Sanitize door handles

AIRLOCK ENTRY

- ☐ Clean glass windows and doors using Aquamix #2 and window cleaning equipment provided
- ☐ Vacuum floors, then mop tiles floors using Aquamix #10 spray
- ☐ Wipe out umbrella stands using dry blue microfiber cloth
- ☐ Sanitize door handles
- ☐ Wipe hand sanitizer stand with Aquamix #7 and blue microfiber cloth
- ☐ Left-over items taken to Lost & Found

MAIN TOILETS (BROTHERS & SISTERS)

- ☐ Clean toilets -see "Toilet Cleaning Procedure"
- ☐ Wipe toilet paper dispenser and refill any empty rolls
- ☐ Scrub urinals using Aquamix #3 and toilet brush
- ☐ Clean glass/mirrors using Aquamix #2 and blue microfiber
- ☐ Wipe vanity tops and basins using Aquamix #7 and blue microfiber cloth
- ☐ Clean and refill soap dispensers
- ☐ Wipe down and sanitize hand dryers using Aquamix #7 and blue microfiber cloth and empty water reservoir
- ☐ Empty rubbish bin, sanitize and replace liner
- ☐ Empty sanitary bin, sanitize and replace liner
- ☐ Sanitize door handles, partition locks, and push plates using Aquamix #7 and blue microfiber cloth
- ☐ Vacuum floors, then mop using red mops and Aquamix #10

FIRST AID

- ☐ Wipe down bench, sink and cabinet using Aquamix #7 and blue microfiber cloth (including inside)
- ☐ Confirm the sheets and pillowcases (if used) on the bed are replaced (First Aid department will do this), any soiled linen to be placed in the laundry tub
- ☐ Clean toilet – see "Toilet Cleaning Procedure"
- ☐ Wipe toilet paper dispenser and refill any empty rolls
- ☐ Clean mirror using Aquamix #2 and blue microfiber
- ☐ Wipe vanity tops and basin using Aquamix #7 and blue microfiber cloth
- ☐ Clean and refill both soap dispenser and paper towel dispenser
- ☐ Empty rubbish bin, sanitize exteriors using Aquamix #7 and replace liner
- ☐ Empty sanitary bin, sanitize exteriors using Aquamix #7 and replace liner
- ☐ Sanitize door handles and light switches using Aquamix #7 and blue microfiber cloth
- ☐ Vacuum all floors, then mop tiles in bathroom using red mops and Aquamix #10

CONVENTION COMMITTEE OFFICE

- ☐ Tidy desks and wipe down using Aquamix #7 and blue microfiber cloth
- ☐ Vacuum carpet floors
- ☐ Spot vacuum chairs
- ☐ Remove schedules/paperwork from notice board
- ☐ Empty rubbish bin
- ☐ Sanitize door handles and light switches using Aquamix #7 and blue microfiber cloth

PARENTS AND BABIES ROOM

- ☐ Check the microwave is clean. If cleaning is needed use AquaMix 7 and blue microfiber cloths
- ☐ Wipe down benches and cupboards using Aquamix #7 and blue microfiber cloth (including inside)
- ☐ Spot clean leather chairs using damp blue microfiber cloth (do not use chemical)
- ☐ Clean mirrors using Aquamix #2 and a blue microfiber cloth
- ☐ Clean and refill both soap dispenser and paper towel dispenser
- ☐ Wipe change mats using Aquamix #7 and blue microfiber cloth
- ☐ Empty nappy bin, sanitize exterior using Aquamix #7 and red microfiber cloth, replace liner
- ☐ Vacuum carpet floors
- ☐ Sanitize door handles, light switches etc using Aquamix #7 and blue microfiber cloth

06

CLEANING DEPARTMENT Dining Room & Auxiliary Auditorium

Please complete the tasks list below

DINING ROOM

- ☐ Wipe down kitchen bench, sink and cupboards using Aquamix #7 and green microfiber cloth
- ☐ Clean appliances with damp green microfiber cloth
- ☐ Wipe down all tables and chairs using Aquamix #7 and green microfiber cloth
- ☐ Mop vinyl floors using Aquamix #10 spray bottles and green flat head mops
- ☐ Vacuum carpet floors
- ☐ Arrange tables and chairs - see "Dining Room Layout"

AUXILIARY AUDITORIUM (IF USED)

- ☐ Vacuum all carpet areas including the platform, auxiliary chairmans office, and underneath seat rows
- ☐ Spot vacuum chairs and armrests
- ☐ Wipe down stage furniture and push plates using Aquamix #7 and blue microfiber cloth
- ☐ Clean glass doors using Aquamix #2 spray bottles and blue microfiber cloth
- ☐ Left-over items taken to Lost & Found

OUTSIDE

- ☐ Clean all dining room windows and doors using Aquamix #2 and provided window cleaning equipment
- ☐ Sanitize external door handles using Aquamix #7 and blue microfiber cloth
- ☐ Clean outdoor tables using Aquamix #7 and green microfiber cloth
- ☐ Clean, stack and store outdoor chairs in Dining Room
- ☐ Pick up any rubbish from grounds

CLEANING ROOM

- ☐ Place all used cloths in laundry bin in cleaning room
- ☐ Vacuums to be returned to their places and hoses neatly hung as indicated by signage
- ☐ Dispose of all used gloves and aprons
- ☐ Empty bin (and all other rubbish) into red skip and replace bin bag
- ☐ Sanitize rubbish bin using Aquamix #7 and red microfiber cloth
- ☐ Place used mop pads in laundry tub. Thoroughly wash red string mops in hot water, wring out and hang on external wall outside first aid
- ☐ Please ensure all chemical bottles are returned and placed out of reach of children

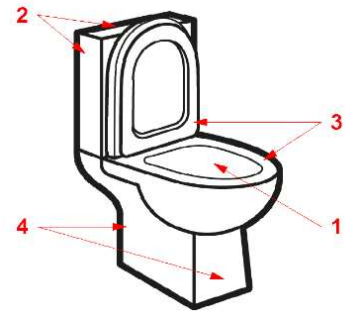

Note: When the Cleaning Overseer is satisfied that all these things have been satisfactorily completed, he will notify the Assembly Overseer/Convention Committee Coordinator. A walkthrough with the Committee, Cleaning Overseer and AHR can then begin. It is helpful to keep some volunteers onsite to assist with any issues that may be discovered

TOILETS CLEANING PROCEDURE

Please ensure a new, clean red cloth is used for **EACH** toilet

Place 'closed for cleaning' sign in front of toilet entry door.

1. Ensure water inside bowl is fresh by flushing. Scrub inside toilet bowl using Aquamix #3 and toilet brush. Leave toilet brush in bowl and flush.
2. Wipe toilet cistern and flush buttons with Aquamix #7 and a clean red microfiber cloth
3. Wipe toilet lid and seats and with Aquamix #7 and red cloth
4. Wipe the entire outside of the toilet bowl and base with Aquamix #7 and red microfiber cloth

SERVICE A POD PETITE

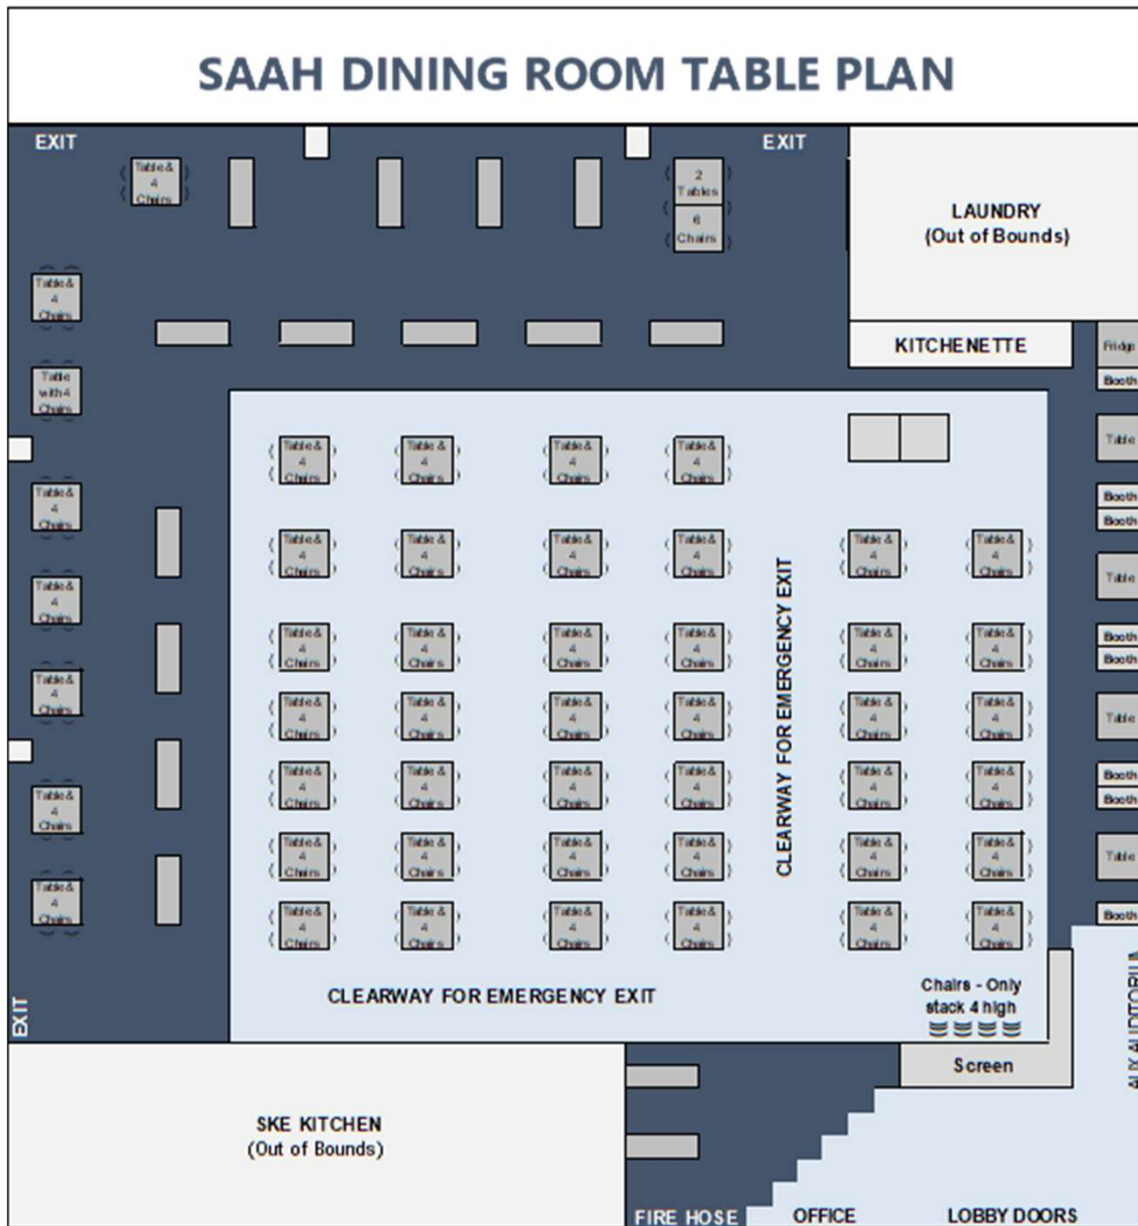

It is important that a knot is tied on the top of the bag being removed and the bottom of the new bag. Failure to do so can result in a serious, unhygienic issue for volunteers.

Quick, simple 3 step service process

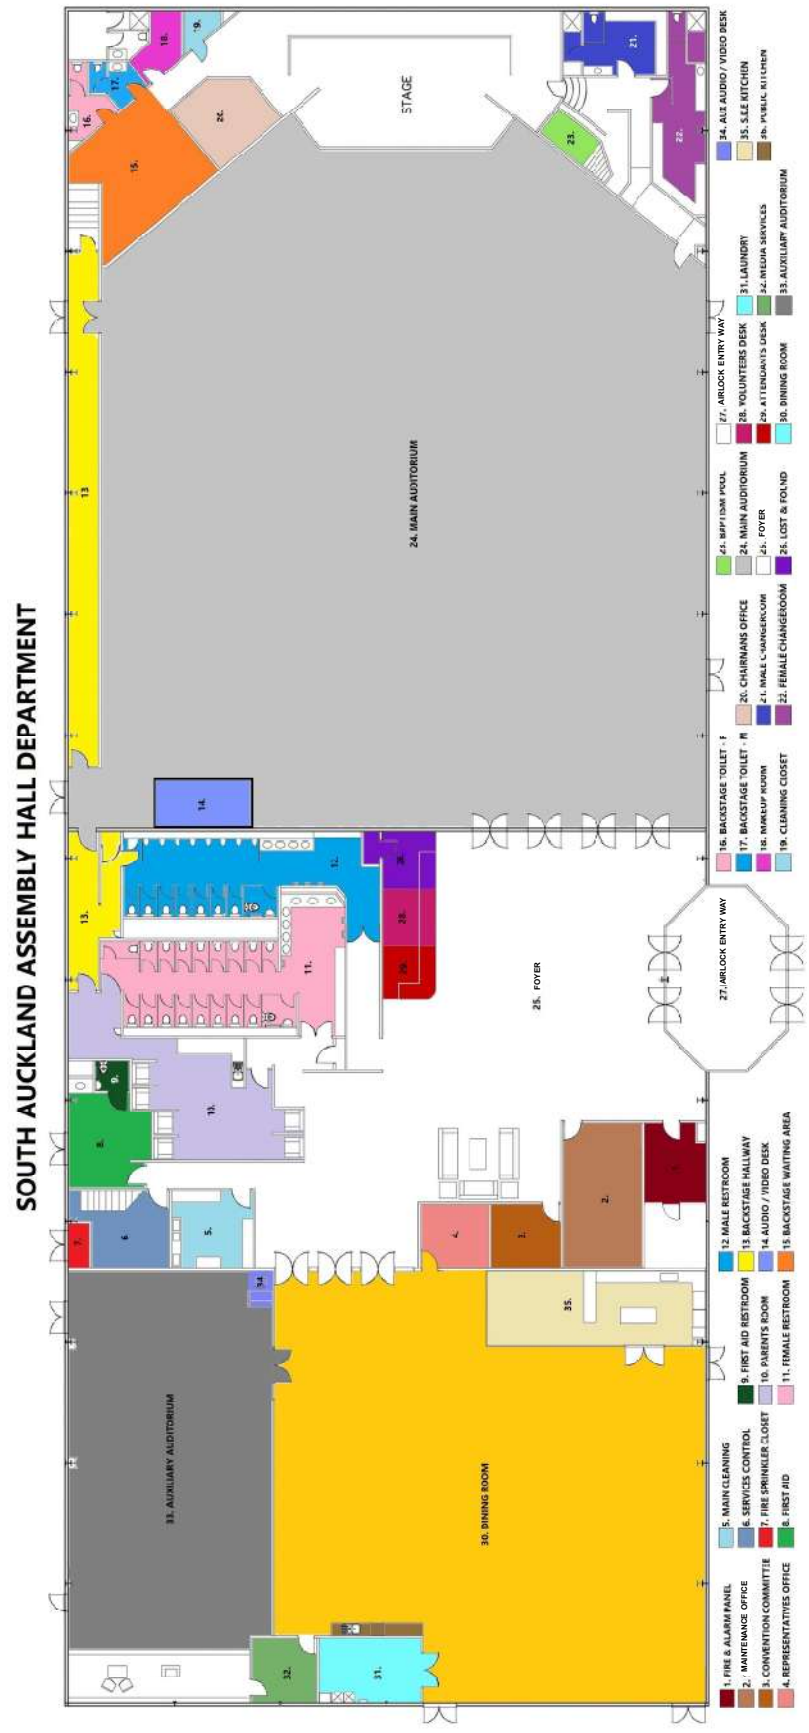

DINING ROOM TABLE LAYOUT

Please make sure that after each day the Dining Room furniture is put back according to the layout Below:

CLEANING DEPARTMENT PLAN

07

FIRST AID DEPARTMENT

First Aid Bed

Cleaning

Parents and Babies

Checklist

General

AED

First Aid Bed

Cleaning

Parents and Babies

Checklist

GENERAL

Stocks of non-medicinal first aid supplies are checked regularly. However, when the First Aid Overseer arrives, he should check the stock and, if something is required, he should advise the Assembly Overseer/Convention Coordinator who will make it known to the Assembly Hall Representative (AHR).

Please keep an inventory of all first aid supplies used over the course of your event. At the end of each event, this inventory of items used should be handed to the Assembly Overseer/Convention Coordinator to give to the AHR so that the first aid supplies can be replenished as needed.

A wheelchair is located in the first aid room if needed.

A telephone is located on the wall in the first aid room. Local emergency services can be telephoned by dialling 111. The local medical centre is listed on the noticeboard.

AED

An Automatic External Defibrillator (AED) is available in the First Aid room. If the AED is used, please advise the Assembly Overseer/Convention Coordinator who will make it known to the AHR.

FIRST AID BED

Sheets and pillowcases are provided for the bed in the first aid room.

Please ensure that these are used if the bed is required. Beds should be remade neatly with clean sheets ready for the next use. Used bedding should be placed in the laundry bin provided.

General

AED

First Aid Bed

Cleaning

Parents and Babies

Checklist

CLEANING

The first aid department is responsible for the general tidy of the first aid room and parents and babies' room at the end of each day.

PARENTS AND BABIES

There is a parents room off the foyer. This room includes private seating for nursing mothers, as well as a sink, microwave and change tables.

Disposable nappies should never be flushed down the toilet. Use the bins provided. Please ensure these bins are emptied regularly and that bin liners are used.

07

FIRST AID DEPARTMENT

Please complete the tasks list below

START OF THE DAY

- ☐ Wipe benches and touch areas with AquaMix 7 and clean blue cloths
- ☐ Check/replenish hand towels
- ☐ Wipe bin lid with AquaMix 7 and clean blue cloths
- ☐ Become familiar with contents of each first aid kit

END OF THE DAY

Parents and babies area:

- ☐ Clean microwave with AquaMix 7 and clean blue microfiber cloths
- ☐ Check all cupboards for items left during the day
- ☐ Tidy chairs and curtains

First aid room:

- ☐ Wipe bench and touch areas with Aquamix 7 and clean blue microfiber cloths
- ☐ Replace sheets & pillowcases on bed (if used) and put soiled linen in laundry bin
- ☐ Bed neatly made, covered with fresh sheet and pillowcase if used during the day
- ☐ Tidy toilet for cleaning department to clean
- ☐ Curtains neatly placed around bed
- ☐ Vacuum floors
- ☐ Note any first aid items used (including the AED) and/or removed
- ☐ TV turned off
- ☐ Lights turned off
- ☐ Return this checklist to event oversight

CAR PARK CAPACITY

Please refer to car park layout for the location of each parking zone.

Main Car Park (A) 246
Clevedon Rd Entry Parking (B) 13
Additional Parking (C) 7
Mobility Parking (D) 11
Overflow Parking (F) 101

Additional parking is available on the concreted area to the east of the Residence (Old Wairoa Rd Entry Parking (E) 12 spaces). This area may be used for large vehicles (like buses); however, this would be at the expense of regular parking spaces.

OVERFLOW PARKING

If overflow parking is required, vehicles may be directed onto the grassed area by the main car park (F). Please assess the condition of the grassed area and use discernment when parking vehicles here to minimise the risk of vehicles becoming stuck or damaging the grass.

Please note: The Kingdom Hall car park is not available for use during assemblies or conventions due to local arrangements for meetings and field service.

PARKING EQUIPMENT

Traffic cones and basic signage is available for use in the Parking Kiosk at the south (Clevedon Road) entrance to the Assembly Hall. These may be used to assist with directing of traffic or to restrict access to certain areas. These cones should be returned to the Parking Kiosk at the conclusion of the event.

Two-way radios are available in the Assembly Overseer/Convention Committee Office. Please place these back on charge after use. Only channel 25 can be used due to local air traffic control.

Vehicle Departure
Checklist
Parking Plan
Car Park Layout

HI-VIZ VESTS

High visibility vests are available and are stored in the closet behind the Lost & Found desk, in the foyer. These vests should be returned at the end of each day.

BADGES

‘Parking’ badges for identification are available under the attendant desk. A parking badge register is provided for badge holders to check in and out. There are a total of 30 parking badges.

MOBILITY PARKING

There are 11 yellow-lined parking bays closest to the Assembly hall which are reserved for those with a mobility parking permit.

RESTRICTED AREAS

Vehicles should not be permitted to park on any grassed areas (except the nominated overflow carpark), nor should vehicles be parked on or block the concrete driveway leading around to the eastern side of the Assembly Hall. This is an accessway for emergency services.

Areas where vehicles should not be parked include:

- ☐ Kingdom Hall car park
- ☐ Driveway of the apartments
- ☐ Outside the maintenance shed
- ☐ Across the residence access
- ☐ In the carport adjacent to the maintenance shed
- ☐ Anywhere on the rear driveway outside the rear gate
- ☐ Grassed areas (except overflow carpark)
- ☐ Driveway and carport to First Aid

OPENING/CLOSING GATES

A key to unlock the main entrance gates (Clevedon Road) will be provided to the Parking Overseer. The main gates should be kept open during events in case an emergency arises. They are manually operated.

The rear gate (Old Wairoa Road) is automated. The Assembly Hall Representative (AHR) is responsible for opening and closing this gate at the request of program oversight. No other person should attempt to open or close this gate due to risk of injury and damage to the gate, motor and components.

SECURITY

It is recommended that both entry gates be monitored at all times **while the gates are open**. This includes during program sessions. If any suspect vehicles or persons enter the grounds, the Attendant Department should be notified immediately.

The Parking Kiosk, located toward the main entrance gates (Clevedon Road) provides a comfortable, sheltered area for volunteers to monitor the carpark and security. This building can be accessed using the key provided to the Parking Overseer. The kiosk also has a live stream feed of the program being presented in the main auditorium.

A live feed of the rear gate (Old Wairoa Road) is available for monitoring from the Attendants Desk in the foyer, inside the Assembly Hall

OFFSITE PARKING

Offsite parking is permitted in the surrounding streets.

Pukeroa Place - residents have previously raised concerns regarding the high number of parked vehicles on the street

Old Wairoa Road - ample kerbside parking

Clevedon Road - busy thoroughfare, not much safe kerbside parking

Car Park Layout

VEHICLE ARRIVAL

Clear direction from parking attendants is needed to ensure the safe movement of vehicles through the portico and that the elderly and infirmed are directed toward the appropriate parking.

The portico also serves as a pick-up/drop-off zone and, therefore, requires careful traffic control.

Bays in the main car park are designed to be one-way and have traffic move in alternating directions.

Please see Parking Plan for an example of traffic flow through the portico as well as the direction of traffic for the main parking bays.

VEHICLE DEPARTURE

The maximum speed limit of the site is 15 kph, and during the busy departure time it is expected that vehicle speeds would be even slower.

After program sessions, it is recommended to have parking attendants on duty to assist the brothers and sisters to vacate the car park in an orderly manner. The angled parking bays in the main carpark are tight and can present a challenge in reversing out. Vehicles can easily back into each other and this risk can be greatly reduced by the presence of parking attendants.

To help with easing traffic congestion at departure time, both the main and rear gate can be opened. During Friday afternoon peak hours, significant traffic congestion can make it particularly difficult to exit from Old Wairoa Road. Likewise, heavy congestion on Clevedon Road can make exiting and turning right challenging.

08

PARKING DEPARTMENT

Please complete the tasks list below

PARKING DEPARTMENT END OF DAY

- ☐ Return all parking cones and barriers to Parking Kiosk
- ☐ Remove rubbish from car park
- ☐ Take lost items to Lost & Found

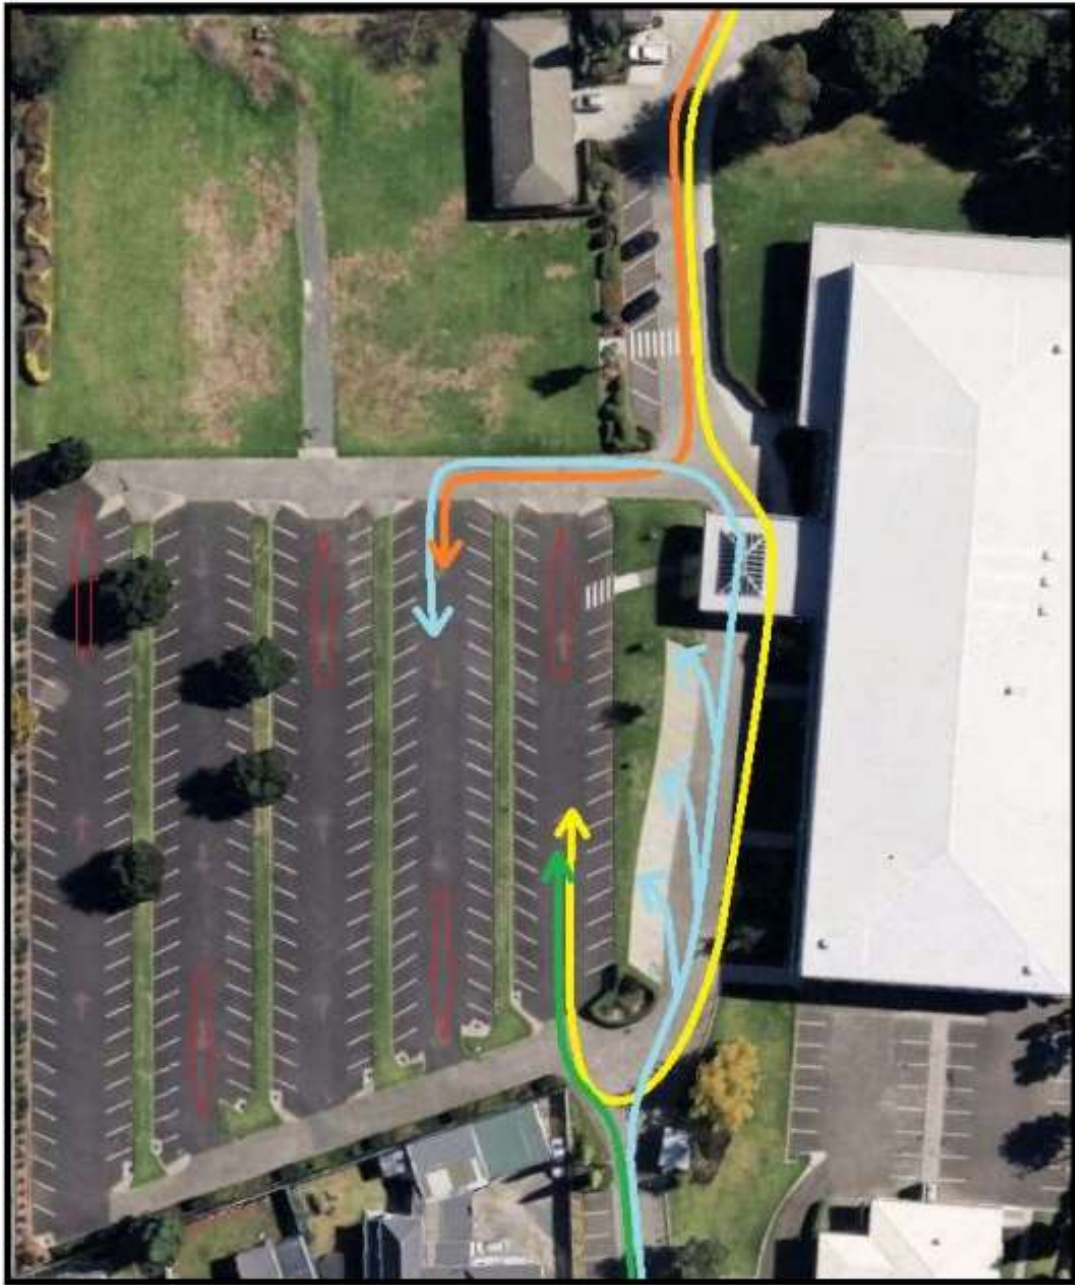

FOYER CLOSET

- ☐ Return and neatly hang all high-viz safety vests in cupboard
- ☐ Return parking badges and complete parking badge register
- ☐ Return two-way radios to Assembly Overseer/Convention Committee Office

PARKING KIOSK

- ☐ Remove all personal items and rubbish
- ☐ Sweep floor of kiosk
- ☐ Wipe desk surfaces with Aquamix #7 and blue microfiber cloth
- ☐ Spot clean glass with blue microfiber cloth and Aquamix #2
- ☐ Close window and lock door
- ☐ Return this checklist to event oversight

LOST AND FOUND DEPARTMENT

General
Checklist

General
Checklist

GENERAL

This department is located in the foyer.

09

LOST AND FOUND DEPARTMENT

Please complete the tasks list below

LOST AND FOUND DEPARTMENT

- ☐ Remove all left behind items from the main auditorium, baptism change rooms, outside eating areas and the dining room and take to the Lost and Found Department
- ☐ Commonly missed items are:
 - ☐ Umbrella's left in the umbrella stands in the entrance
 - ☐ Change/Baby bags in the Parents Room
 - ☐ Food bags in the cafeteria
 - ☐ Jackets left on the back of chairs
 - ☐ Personal devices backstage
- ☐ All personal belongings removed from the Assembly Hall
- ☐ Tidy counter and chairs
- ☐ Return this checklist to event oversight
