

South Auckland Assembly Hall Evacuation Plan

Emergencies

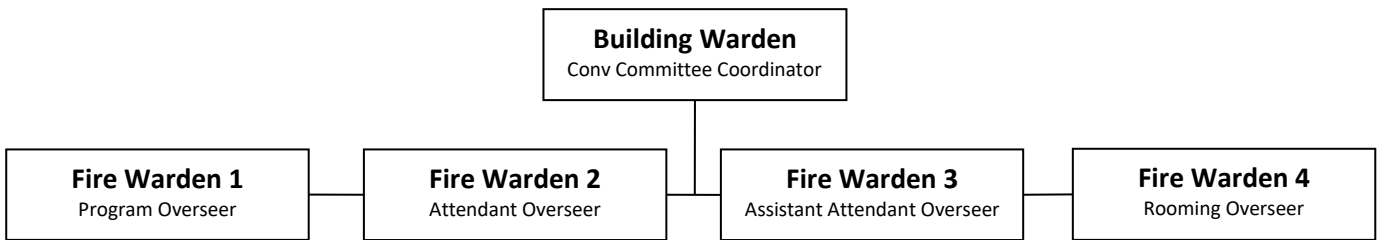

1. All emergencies must be communicated immediately to the Assembly Overseer (Convention Committee Coordinator), Circuit Overseer (Convention Chairman), and the Assembly Hall Overseer (or representative). These brothers will decide what action will be taken and what, if any, announcements are to be made.
2. Attendants must know the location of all emergency exits in the building along with the location of the assembly points for their respective sections. Only brothers with experience should use the fire hose reels and extinguishers, therefore the attendant's overseer should know in advance who is assigned to operate these in the event of a fire. Brothers should be assigned to use this equipment and sit in the section closest.
3. In the case of complete mains power failure, Emergency Lighting will kick in and operate without interruption. The AV & ventilation systems will not work. Attendants should open all emergency exits to allow breeze to flow through the auditorium.
4. If an evacuation is decided upon, the attendants must be assigned various responsibilities in advance to direct the brothers from their seating to safe locations outside the building. An evacuation plan is detailed below. An A2 sized print out is supplied at the attendants desk of the Evacuation Plan – Attendant Locations and Assignments. This must be filled out prior to the beginning of the event and modified as needed throughout.

Chain of Command – Emergencies

Circuit Assemblies

Regional Conventions

Responsibilities

Building Warden – Oversees evacuation process and all communication with emergency services. Maintains communication between all fire wardens and first aid personnel. For a fire evacuation is positioned near fire panel and communicates with fire department on their arrival. Identified by a white hard hat and hi-vis vest.

Fire Wardens – Oversees their assigned area during an evacuation. Responsible for carrying out a final check of their area and reporting immediately to the building warden. Has general oversight of all at assigned assembly point under the direction of the Building warden. Identified by a red hard hat and hi-vis vest.

First Aid - One first aider is assigned to each designated assembly point to attend to any whom may need medical attention. Identified by a green hard hat and hi-vis vest.

Building Warden

Fire Wardens

First Aid

Note: Building warden Hard hat is kept in the administration office. Fire warden hats are kept at the attendants desk. Vests are kept in the lost and found cupboard. First aid kits and hard hats are kept in the first aid room cupboard. Vests should be collected at the beginning of the day and kept near you at all times, such as under your seat. At the end of each day they should be returned to the cupboard behind the attendance desk.

Sprinklers/Heat Detectors

If the fire alarm system activates due to heat being detected the fire alarm will sound throughout the building, a full evacuation will be required, the local fire station will be alerted, fire engines & personnel will attend.

If the alarm is genuine:

- If practical, put out fire by means of nearest fire extinguisher.
- If fire cannot be extinguished inform the Building Warden who will inform the Assembly Hall Overseer (or his representative).
- Go to the nearest fire hose reel location and start fighting the fire with the hose until the Fire Brigade arrives.
- The program will have to be interrupted to allow for an announcement and orderly evacuation as outlined above.
- Please note Fire Department Recommendations listed below.

If false alarm:

- The above procedure will still need to be followed including a full evacuation as the fire brigade need to attend to access the Fire Panel and reset the system.

Procedure if fire alarm is not activated

If a fire starts, and alarm is not activated, manually activate by pressing one of the break-glass alarms located throughout the Assembly Hall (these are labelled as “manual call point” on the evacuation plan) and attempt to extinguish with nearest fire extinguisher. Activating alarm will bring the above procedures into place. Please note that someone will need to be at the FIP to inform arriving brothers of location of fire.

Fire Brigade - Phone 111 (Triple one)

FIRE DEPARTMENT RECOMMENDATIONS

- Closing doors will confine fire and restrict the spread of smoke.
- Do not open doors that feel hot as fire may be on the other side of the door.
- In smoke, breathable air may be available close to the floor.
- Keeping calm and thinking clearly will increase likelihood of survival.

Even though the security system is disarmed, smoke sensors are on a 24 hour alert. Should the alarm activate during the sessions, it won't be obvious to anyone in the Assembly Hall, but the Assembly Hall Overseer will be aware of it.

Should an emergency arise, then the emergency evacuation procedures set down in this manual will need to be carefully followed.

Emergency Contact Numbers

Fire, Police, Ambulance – 111

Poisons Centre – 0800 764 766

Vector Electricity – 0508 832 867

First GAS – 0800 734 567

Auckland Council – 09 301 0101

CHAIRMAN'S ANNOUNCEMENT (Bomb threat)

"Brothers and Sisters, we have a need to evacuate the Assembly Hall immediately. Please **DO NOT MOVE YET**, but gather up your belongings while I am talking. **DO NOT** take anything that does not belong to you. If your belongings cannot be reached without leaving your seat, do not attempt to get them either now or when you leave. I repeat: Brothers and Sisters, we have a need to evacuate the Assembly Hall immediately. Please **DO NOT MOVE YET**, but gather up your belongings while I am talking. **DO NOT** take anything that does not belong to you. If your belongings cannot be reached without leaving your seat, do not attempt to get them either now or when you leave.

Each row will leave their seats following the direction indicated by the attendants wearing hi-viz vests. Once outside, continue following the attendants to the assembly points. I repeat, continue following the attendants to the assembly points. If you are separated from family members, please **DO NOT** go looking for them. The attendants will see that all in the building are assisted to get to the same area. Please stand now and look in your row for any who may need assistance. **Attendants!** Please start directing the brothers as instructed. Brothers and Sisters, [please remain calm](#). [Commence moving out now in an orderly manner as directed. Please don't re-enter the building unless you have been directed to. We will keep you informed. Thank you.](#)"

[\(If any start to panic, rush or run, please appeal to them to remain calm and follow the directions of the Attendants\)](#)

NOTES FOR CHAIRMAN:

PLEASE REMAIN ON THE PLATFORM UNTIL THE HALL IS COMPLETELY EVACUATED.

If necessary again encourage all to follow the direction of the attendants, walk orderly and not run.

CHAIRMAN'S ANNOUNCEMENT (FIRE)

(If Necessary)

"Brothers and Sisters, we need to evacuate the Assembly Hall immediately. Please listen carefully. Please stand and wait for directions from the Attendant nearest you. Please help any in your row who may need assistance. Please **DO NOT** take your possessions with you.

Each row will leave their seats following the direction indicated by the attendants wearing hi-viz vests. Once outside, continue following the attendants to the assembly points. If you are separated from family members, please **DO NOT** go looking for them. The attendants will see that all in the building are assisted to get to the same area. Please remain calm and follow the directions from the attendants. **Attendants!** Please start directing the brothers as instructed. Commence moving out now in an orderly manner as directed. [Please don't re-enter the building unless you have been directed to. We will keep you informed. Thank you.](#)"

(If any start to panic, rush or run, please appeal to them to remain calm and follow the directions of the Attendants)

NOTE FOR CHAIRMAN:

PLEASE REMAIN ON THE PLATFORM UNTIL THE HALL IS COMPLETELY EVACUATED.

If necessary again encourage all to follow the direction of the attendants, walk orderly and not run.

SOUTH AUCKLAND ASSEMBLY HALL EMERGENCY EVACUATION PROCEDURE

Please pay careful attention to the following:

Should it be necessary to evacuate the Assembly Hall please follow these instructions:

Those seated on my right should use the exits on that side of the Auditorium (*point to the right*), proceed to the grassed area to the North of the Assembly Hall.

Those seated on my left should use the exits on that side of the Auditorium (*point to the left*), and proceed to the Assembly Area in the main car park. (*Point to the left*)

Those seated in the centre section of the Auditorium should use the main exits to the rear of the Auditorium (*point to the back of the Hall*), and proceed to the Assembly Area in the main car park (*point to the left*). However those to the front centre of the section may also be able to use the side doors.

If the alarm sounds during the program, please prepare to evacuate the Facility **IMMEDIATELY**.

In such a case we ask that you follow carefully the directions given by the Attendants.

Should the alarm sound during the lunch break, or before or after sessions, please move quietly out of the Building to the evacuation areas.

(Please leave this copy in the Chairman's Office)

NOTES FOR ATTENDANTS

(Optional Document to assist Assembly Oversight in training brothers and making a plan)

Review the evacuation diagram and become familiar with the proposed evacuation plan.

Key men hold the responsibility of ensuring that they are totally familiar with their area of assignment. They must also personally know who the Fire Warden is they report to, and the safest route from their area to the nearest exit and on to the assembly point. **IT IS ALSO THEIR RESPONSIBILITY TO MAKE SURE THAT ALL DESIGNATED ATTENDANTS KNOW HOW TO GUIDE THE EVACUEES TO THE NEAREST EXIT AND TO THE ASSEMBLY AREA AND THAT EACH ATTENDANT IS GIVEN SPECIFIC INSTRUCTIONS AS TO WHAT HIS DUTIES ARE.**

Familiarize yourself with the location of the nearest exit(s), fire alarm and assembly point so you can take quick action and minimize the potential of the emergency.

AVOID PANIC – REMOVE THE CROWD NEAREST THE EXITS FIRST

DO NOT ALLOW PUSHING OR RUNNING. YOU MUST ASSIST THE ELDERLY AND INFIRM.

AUDITORIUM: The assigned Fire Wardens will supervise the evacuation. Attendants are being assigned to a specific area and should sit at all times in this area. In the event of an emergency, they will take their positions in their respective area, and starting with the rows nearest to the closest exit, direct the friends, **ONE ROW AT A TIME** out of their seats. After this, **do not allow any unauthorized personnel to re-enter the auditorium.** This excludes Assembly Administration, or Civil Authorities. When the Auditorium is completely clear, the Fire Wardens and attendants should proceed to the assembly point and report to the Attendant department personnel and assist as directed.

NOTE:

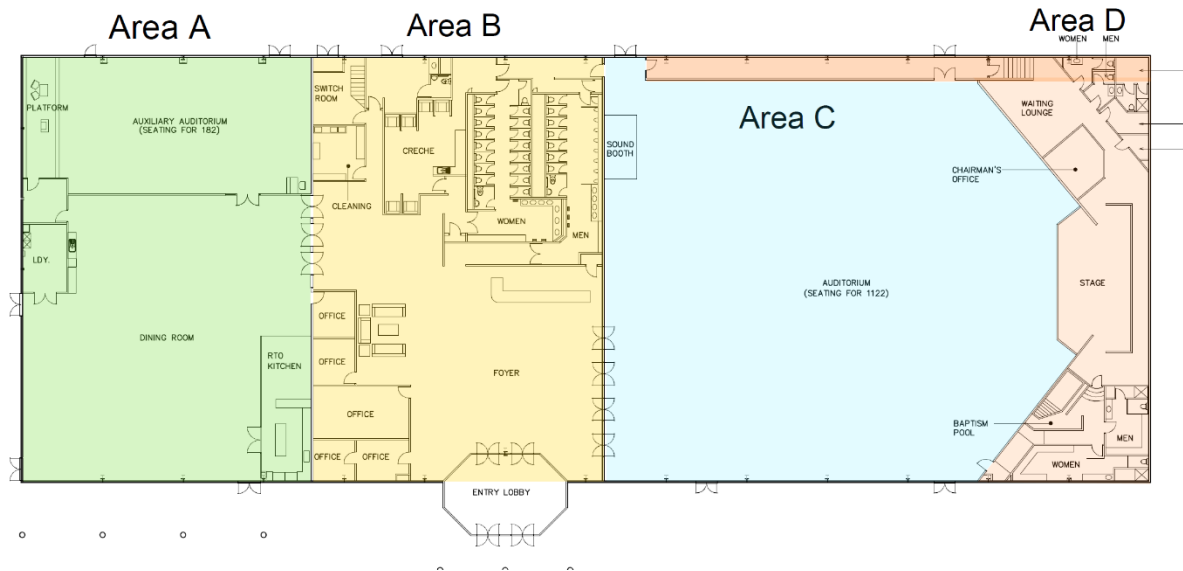

Fire – Direct crowd to leave behind all bags etc.

Bomb Threat – Direct crowd to take all bags etc. with them.

EVACUATION REPORT

BUILDING WARDEN shall complete this form and hand it to the FIRE DEPARTMENT on its arrival

BUILDING WARDEN: _____
(Print Name)
