Current control point: The circuit overseer has confirmed receipt of the S-51 and has now requested the remaining S-50 par. 5 forms: S-29, S-5, M-202, S-36 and S-6. He also requested the body's recommendation(s) for the prospective coordinator and a separate 2026 language-fields information form. A working copy of that return now contains all figures established from the proposal and DeckHand; only the 2026-service-year baptism count is marked TBC. Branch approval under S-50 par. 6 remains pending.

Next action: Await Daniel's reply confirming whether the language-fields return should contain only the Ashburton Tagalog Group or cover other fields in the circuit. In parallel, confirm the number baptized in the Ashburton Tagalog field during the 2026 service year, prepare the five requested par. 5 forms, and obtain the body's coordinator recommendation(s). Send nothing further until the completed material has been reviewed and explicitly authorised.

Present position

Decisions requiring confirmation

- **What date and reporting period apply to the 34 progressive Bible studies?** — The number was supplied separately and is not printed in the local proposal or S-303. DeckHand reports 47 total Bible studies for the proposed group in July 2026, confirming that 34 progressive studies is a narrower measure and should not replace the form's Bible Studies figure.
- **Whom will the body recommend for appointment as coordinator of the prospective congregation?** — Daniel requested the body's recommendation(s) as soon as possible in his 25 August 2026 email, citing SFG 1:11, 12.
- **Does Daniel want only the Ashburton Tagalog group row or a wider language-field return?** — The attached form is generic and plural, but Daniel's email to Adamson does not state the required reporting scope.
- **How many persons were baptized in the Ashburton Tagalog field during the 2026 service year?** — The attached form asks for baptisms during the service year, not the total number of baptized publishers. DeckHand's circuit-assistant export provides a baptism-date column, but it is blank for all 228 Ashburton records, so it cannot establish this figure. The working form correctly marks this cell TBC.

Approval gate: Both S-51 forms have been sent to the circuit overseer, and S-50 through par. 5 has been confirmed. S-50 par. 6 remains pending until the branch office communicates its decision, official start date, and further instructions.
